**Summary of the analysis and conclusions drawn from detailed monitoring of the quality of execution obtained on the execution venues where client orders were executed in the previous year**

**(a) Equities – Shares & Depositary Receipts**

**(a) Relative importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when assessing the quality of execution**

In order to assess the quality of execution, the Compliance team focuses on the price factor. Alerts are generated when the price of execution is superior (in case of buy) or inferior (in case of sale) to the market price and investigated based on a sampling. Some of the alerts can be closed considering the characteristics of the order (e.g., limit orders), volume, or probability of settlement.

**(b) Close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders**

UBP SA has a participation of 1.22% in SIX group AG, the Swiss stock exchange. UBP SA has no conflicts of interests or common ownerships with respect to any execution venues used to execute equity orders.

**(c) Specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received**

There are no specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received for the trading of equity instruments.

**(d) Factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred**

UBP has a detailed internal process for validating and modifying its authorised third party broker list. The UBP Bank and Broker Committee is responsible at Group level for validating and maintaining the authorised broker list. UBP will obtain assurance by means of execution arrangements from the authorised third party brokers that they have procedures in place equal to the ones adopted and implemented by UBP. UBP also ensures the ongoing monitoring and oversight of these third party brokers.

UBP considers the following as the most important factors when selecting a third party broker:

1. Size, creditworthiness and reputation of the broker (company rating);
2. A well established reputation in relation to a particular market or industry sector;
3. Clearance and settlement capabilities (such as the ability to settle DVP);
4. Access to markets and distribution networks; and
5. Availability and effectiveness of algorithmic trading strategies (Note: this is only relevant when considering an electronic trading relationship)

6. This list shall be completed with qualitative factors such as clearing schemes, circuit breakers, scheduled actions, or any other relevant consideration, and the relative importance of each factor.

In 2017, there was a change in the list of execution venues due to the unbundling of execution and research, resulting in the consideration of the price factor in addition to the above criteria.

**(e) How order execution differs according to client categorisation, where the firm treats categories of clients differently and where it may affect the order execution arrangements**

UBP SA London Branch focuses on the price of execution for all of its clients, including retail clients.

**(f) Other criteria that were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client**

In specific situations other criteria can take precedence over price, such as the characteristics of the order (e.g., limit orders), volume, or the probability of settlement.

**(g) An explanation of how the investment firm has used any data or tools relating to the quality of execution, including any data published under Commission Delegated Regulation EU 2017/575**

For the year 2017, no data was publicly available in application of the Commission Delegated Regulation EU 2017/575.

**(h) Where applicable, an explanation of how the investment firm has used output of a consolidated tape provider established under Article 65 of Directive 2014/65/EU**

For the year 2017, no data was publicly available from consolidated tape providers established under Article 65 of Directive 2014/65/EU.

**(b) Debt instruments**

**(i) Bonds**

**(a) Relative importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when assessing the quality of execution**

For fixed income trading, the explicit cost of execution is included in the price executed via a spread that is not public. Trading costs and fees are determined by the liquidity of the security influencing the size of the spread.

In order to assess the quality of execution, Compliance checks whether three different prices were considered before deciding which broker would execute the transaction. If less than 3 prices were available, Compliance checks if the price of execution is in line with CBBT considering the size of the order versus the volume available on the market.

**(b) Close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders**

UBP SA, London Branch used mainly UBP Securities Limited to trade bonds until November 30, 2017, as due to its geographical location UBP Securities was in a central position in relation to financial markets. UBS SA, London Branch and UBP securities Limited are respectively a Branch and a Subsidiary of UBP SA. Since that date the fixed income trading desk moved to Geneva (Switzerland) and all fixed income orders emanating from UBP SA, London Branch are directed to external counterparties by UBP SA.

**(c) Specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received**

There are no specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received for the trading of debt instruments.

**(d) Factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred**

UBP has a detailed internal process for validating and modifying its authorised third party broker list. The UBP Bank and Broker Committee is responsible at Group level for validating and maintaining the authorised broker list. UBP will obtain assurance by means of execution arrangements from the authorised third party brokers that they have procedures in place equal to the ones adopted and implemented by UBP. UBP also ensures the ongoing monitoring and oversight of these third party brokers.

UBP considers the following as the most important factors when selecting a third party broker:

1. Size, creditworthiness and reputation of the broker (company rating);
2. A well established reputation in relation to a particular market or industry sector;
3. Clearance and settlement capabilities (such as the ability to settle DVP);
4. Access to markets and distribution networks; and
5. Availability and effectiveness of algorithmic trading strategies (Note: this is only relevant when considering an electronic trading relationship)

6. This list shall be completed with qualitative factors such as clearing schemes, circuit breakers, scheduled actions, or any other relevant consideration, and the relative importance of each factor.

In 2017, there was a change in the list of execution venues due to the unbundling of execution and research, resulting in the consideration of the price factor in addition to the above criteria.

**(e) How order execution differs according to client categorisation, where the firm treats categories of clients differently and where it may affect the order execution arrangements**

UBP SA London Branch focuses on the price of execution for all of its clients, including retail clients.

**(f) Other criteria that were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client**

In specific situations other criteria can take precedence over price, such as volume or the probability of settlement (in case of illiquid instruments).

**(g) An explanation of how the investment firm has used any data or tools relating to the quality of execution, including any data published under Commission Delegated Regulation EU 2017/575**

For the year 2017, no data was publicly available in application of the Commission Delegated Regulation EU 2017/575.

**(h) Where applicable, an explanation of how the investment firm has used output of a consolidated tape provider established under Article 65 of Directive 2014/65/EU**

#### (d) Credit derivatives

**(a) Relative importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when assessing the quality of execution**

For credit derivatives, UBP uses Goldman Sachs and UBS as executing brokers and clearers as those brokers give UBP access to all the quotes available on the market. Those brokers have been selected due to their operational set-up. The first criteria to assess best execution remains price as those brokers give UBP an access to all the quotes available on the market and the bank selects the best price available.

**(b) Close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders**

UBP SA has no closed links, conflict of interests or common ownerships with respect to any execution venues used to execute credit derivatives.

**(c) Specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received**

There are no specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received for the trading of credit derivatives.

**(d) Factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred**

There were no changes in the list of brokers used to execute credit derivative transactions in 2017.

**(e) How order execution differs according to client categorisation, where the firm treats categories of clients differently and where it may affect the order execution arrangements**

UBP SA London Branch focuses on the price of execution for all of his clients, including retail clients.

**(f) Other criteria that were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client**

Price availability and operational risk were the two factors used to select executing brokers enabling the Bank to deal in credit derivatives.

**(g) An explanation of how the investment firm has used any data or tools relating to the quality of execution, including any data published under Commission Delegated Regulation EU 2017/575**

For the year 2017, no data was publicly available in application of the Commission Delegated Regulation EU 2017/575.

**(h) Where applicable, an explanation of how the investment firm has used output of a consolidated tape provider established under Article 65 of Directive 2014/65/EU**

For the year 2017, no data was publicly available from consolidated tape providers established under Article 65 of Directive 2014/65/EU.

---

#### (e) Currency derivatives

**(a) Relative importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when assessing the quality of execution**

For swaps and forwards, UBP sought primarily to minimize operational risk in order execution. Specific controls will be put in place in 2018 to ensure that those OTC transactions are executed at a fair market price.

**(b) Close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders**

UBP SA is the head office of UBP London Branch.

**(c) Specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received**

There are no specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received for the trading of swaps and forwards.

**(d) Factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred**

There were no changes in the list of brokers used to execute currency derivative transactions in 2017.

**(e) How order execution differs according to client categorisation, where the firm treats categories of clients differently and where it may affect the order execution arrangements**

Order execution does not differ according to client categorization.

**(f) Other criteria that were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client**

UBP sought primarily to minimize operational risk in order execution for swaps and forwards. Specific controls will be put in place in 2018 to ensure that those OTC transactions are executed at a fair market price.

**(g) An explanation of how the investment firm has used any data or tools relating to the quality of execution, including any data published under Commission Delegated Regulation EU 2017/575**

For the year 2017, no data was publicly available in application of the Commission Delegated Regulation EU 2017/575.

**(h) Where applicable, an explanation of how the investment firm has used output of a consolidated tape provider established under Article 65 of Directive 2014/65/EU**

For the year 2017, no data was publicly available from consolidated tape providers established under Article 65 of Directive 2014/65/EU.

---

#### (f) Structured finance instruments

**(a) Relative importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when assessing the quality of execution**

For structured finance instruments, UBP sought primarily to minimize operational and settlement risks in order execution through efficient processes. Among the selected brokers and where applicable, a request for quote is made and the best price is selected for our clients. Level 2 controls will be put in place in 2018 to ensure that those OTC transactions are executed at a fair market price.

**(b) Close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders**

UBP SA is the head office of UBP London Branch and offers actively managed certificates to its clients.

**(c) Specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received**

There are no specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received for the trading of structured finance instruments.

**(d) Factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred**

There were no changes in the list of brokers used to execute structured finance instruments in 2017.

**(e) How order execution differs according to client categorisation, where the firm treats categories of clients differently and where it may affect the order execution arrangements**

Order execution does not differ according to client categorization.

**(f) Other criteria that were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client**

UBP sought primarily to minimize operational and settlement risk in the selection of structured finance instrument brokers. Where applicable, request for quotes are made among approved brokers and the selection is made based on the best price available. Additional controls will be put in place in 2018 to ensure that those OTC transactions are executed at a fair market price.

**(g) An explanation of how the investment firm has used any data or tools relating to the quality of execution, including any data published under Commission Delegated Regulation EU 2017/575**

For the year 2017, no data was publicly available in application of the Commission Delegated Regulation EU 2017/575.

**(h) Where applicable, an explanation of how the investment firm has used output of a consolidated tape provider established under Article 65 of Directive 2014/65/EU**

For the year 2017, no data was publicly available from consolidated tape providers established under Article 65 of Directive 2014/65/EU.

---

#### (g) Equity derivatives

**(a) Relative importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when assessing the quality of execution**

For equity derivatives, UBP uses the Goldman Sachs and UBS as executing brokers and clearers and those brokers give UBP an access to all the quotes available on the market. Those brokers have been selected due to their operational set-up in order to minimize operational risks. The first criteria to assess best execution remains price as those brokers give UBP an access to all the quotes available on the market and the bank selects the best price available.

**(b) Close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders**

UBP SA has no closed links, conflict of interests or common ownerships with respect to any execution venues used to execute equity derivatives.

**(c) Specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received**

There are no specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received for the trading of equity derivatives.

**(d) Factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred**

There were no changes in the list of brokers used to execute equity derivative transactions in 2017.

**(e) How order execution differs according to client categorisation, where the firm treats categories of clients differently and where it may affect the order execution arrangements**

UBP SA London Branch focuses on the price of execution for all of his clients, including retail clients.

**(f) Other criteria that were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client**

Price availability and operational risk were the two factors used to select executing brokers enabling the Bank to deal in equity derivatives.

**(g) An explanation of how the investment firm has used any data or tools relating to the quality of execution, including any data published under Commission Delegated Regulation EU 2017/575**

For the year 2017, no data was publicly available in application of the Commission Delegated Regulation EU 2017/575.

**(h) Where applicable, an explanation of how the investment firm has used output of a consolidated tape provider established under Article 65 of Directive 2014/65/EU**  
For the year 2017, no data was publicly available from consolidated tape providers established under Article 65 of Directive 2014/65/EU.

---

#### (h) Securitised derivatives

**(a) Relative importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when assessing the quality of execution**

Execution cost is the main criteria used to assess the quality of execution for warrants and certificate derivatives, as those products are listed. The probability of execution is also taken into account as some markets are covered by specific brokers only.

**(b) Close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders**

UBP SA has no close links, conflicts of interests, or common ownerships with any execution venues used to execute orders in warrants and certificate derivatives.

**(c) Specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received**

There are no specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received for the trading of warrants and certificate derivatives.

**(d) Factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred**

UBP has a detailed internal process for validating and modifying its authorised third party broker list. The UBP Bank and Broker Committee is responsible at Group level for validating and maintaining the authorised broker list. UBP will obtain assurance by means of execution arrangements from the authorised third party brokers that they have procedures in place equal to the ones adopted and implemented by UBP. UBP also ensures the ongoing monitoring and oversight of these third party brokers.

UBP considers the following as the most important factors when selecting a third party broker:

1. Size, creditworthiness and reputation of the broker (company rating);
  2. A well established reputation in relation to a particular market or industry sector;
  3. Clearance and settlement capabilities (such as the ability to settle DVP);
  4. Access to markets and distribution networks; and
  5. Availability and effectiveness of algorithmic trading strategies (Note: this is only relevant when considering an electronic trading relationship)
6. This list shall be completed with qualitative factors such as clearing schemes, circuit breakers, scheduled actions, or any other relevant consideration, and the relative importance of each factor.

In 2017, there was a change in the list of execution venues due to the unbundling of execution and research, resulting in the consideration of the price factor in addition to the above criteria.

**(e) How order execution differs according to client categorisation, where the firm treats categories of clients differently and where it may affect the order execution arrangements**

UBP SA London Branch focuses on the cost of execution for all of his clients, including retail clients.

**(f) Other criteria that were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client**

The probability of execution is also taken into account as some markets are covered by specific brokers only.

**(g) An explanation of how the investment firm has used any data or tools relating to the quality of execution, including any data published under Commission Delegated Regulation EU 2017/575**
