## What is this product?

### TYPE OF PRODUCT

The Fund is a sub-fund of U ACCESS (Ireland) UCITS P.L.C., an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as an open-ended umbrella investment company (the Company) with variable capital under the laws of Ireland.

### TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

### OBJECTIVES

The Fund seeks to achieve consistent, positive absolute returns over a market cycle, typically a 3 to 4 years period, with moderate correlation to global public equity markets while reducing the market risk of the portfolio through targeted short exposure and tactical hedging.

The Fund is actively managed and not with reference to a benchmark.

The Fund may invest in U.S. and non-U.S. equity instruments (including common stocks, preferred stocks, preferred convertible stocks, American Depositary Receipts (ADRs) and/or Global Depositary Receipts (GDRs)), warrants, listed or Over-The-Counter (OTC) options, swaps and FX forward contracts. Synthetic short positions related to equity instruments are economically equivalent to short positions but implemented through exchange traded, OTC cleared or bilateral Financial Derivative Instruments (FDIs).

The Fund will not invest more than 10% in securities which are not listed, traded or dealt in on permitted markets.

The Portfolio Manager uses a fundamental long/short equity strategy and will generally invest in the consumer, financial, healthcare, industrial, technology, media and telecom sectors, without any specific geographical allocation.

The Fund does not have a sustainable investment objective but invests in companies with good Environmental, Social and Governance (ESG) practices. The assessment of ESG considerations will consist of i) sustainable growth and reducing climate impact, ii) diversity, equity and inclusion and iii) transparency and disclosure. The Portfolio Manager avoids controversial business activities such as adult entertainment, energy and natural resources, basic materials, mining, weaponry, tobacco, and utilities (revenue threshold may apply). For more detail on ESG considerations please refer to the Fund's supplement.

The level of leverage (calculated as a sum of the notional exposure of FDI being used by the Fund) is expected to be between 0% and 190% of the Net Asset Value (NAV) under normal market conditions but the leverage may exceed this range from time to time.

The Fund may invest either directly or indirectly through FDIs, up to 20% of its NAV in equities listed or traded on emerging markets which includes indirect exposure to China A-shares through equity swaps.

The Fund shall not exceed in aggregate 10% of its NAV in investments in eligible Collective Investment Schemes (CIS).

The Fund may gain exposure to financial indices compliant with the UCITS Regulations indirectly through the use of FDIs.

The Fund will invest in FDIs for investment, hedging and/or efficient portfolio management purposes.

If considered appropriate to the investment objective or where market or other factors so warrant, the Fund may be partially or fully invested in cash and/or money market instruments.

The Fund's base currency is USD.

The Fund is suitable for investors seeking a long-term investment who are willing to accept a high volatility due to the Fund's investment policy. Investors should note that holding a substantial proportion of their investment portfolio in the Fund may not be appropriate.

The recommended holding period is determined to allow sufficient time for this product to reach its objectives and provide a consistent return less dependent on market fluctuations. Nevertheless, such return is not guaranteed.

The return of the product is determined using the Net Asset Value (NAV) calculated by the Administrator. This return depends mainly on the market value fluctuations of the underlying investments.

The share currency risk in relation to the Fund's base currency is mainly hedged.

Any income received by the Fund is reinvested (capitalisation share).

### INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with average knowledge of the underlying financial instruments and some financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment over 3 years.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10'000 is invested.
