## What is this product?

### TYPE OF PRODUCT

The Fund is a sub-fund of UBAM, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 10 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

### OBJECTIVES

The Fund seeks to grow your capital and generate income by investing primarily in regulated UCITS and non-UCITS funds which have as investment objective to invest in equities or equivalent between 30% and 70% and in bonds and other debt securities between 30% and 70%. The non-UCITS funds will have an investment policy and a risk exposure similar to the UCITS funds and will be submitted to a regulatory supervision equivalent to a UCITS.

The Fund is actively managed, investing mainly in securities denominated in USD.

The Fund is allowed to invest in currencies other than its base currency (USD). These investments may or may not be hedged at the Investment Manager's discretion.

The principal objective of this Fund is to responsibly capture investment opportunities by investing its assets in a diversified portfolio of funds having a sustainability component.

Funds are selected in a multi-level review process based on both positive and negative criteria (exclusion). Sustainable research relies on the Investment Manager's proprietary ESG analysis which focuses on a thorough understanding of how responsible selected funds are but also the asset management firms managing those funds. Results are confronted with third party ESG ratings and then, integration of sustainability considerations is done at 3 levels:

- Level 1: Exclusion criteria (negative screening)
- Level 2: Inclusion approach (positive screening)
- Level 3: Portfolio construction

At least 2/3 of the Fund's exposure to underlying funds will be made of funds classified as Article 8 and 9 products under the EU Sustainable Finance Disclosure Regulation (SFDR).

The Fund is not managed in reference to a benchmark.

The Fund can invest in Contingent Convertible bonds ("CoCos"), through funds which invest on an ancillary basis in CoCos.

On an ancillary basis, the Fund may also invest in liquid assets up to 20% of its net assets, as well as derivative instruments for hedging purposes.

The Fund's base currency is USD.

As a Fund of bond and equity funds, its holdings can move in line with or return less than the broad stock market, so investors should be aware that the value of their holdings could fall and that they may not get back their initial investment.

The share currency risk in relation to the Fund's base currency is mainly hedged.

Any income received by the Fund is reinvested (capitalisation share class).

### INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment over 3 years.

### OTHER INFORMATION

The depositary is BNP Paribas S.A., Luxembourg Branch.

The registrar and transfer agent is Caceis Bank, Luxembourg Branch.

Further information about the Fund (including the prospectus, latest annual and semi-annual reports, latest NAVs) are available free of charge on [www.ubp.com](http://www.ubp.com) or by making a written request to the registered office of the product manufacturer.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level. Poor market conditions are unlikely to impact the Fund's capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Please refer to the prospectus for more information on the specific and material risks relevant to the Fund not included in the summary risk indicators.

This Fund does not include any protection from future market performance, so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		3 years GBP 10'000		
		If you exit after 1 year	If you exit after 3 years	
<b>Scenarios</b>				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	GBP 4'310	GBP 5'340	
	Average return each year	-56.9%	-18.9%	
Unfavourable scenario	What you might get back after costs	GBP 7'960	GBP 7'960	This type of scenario occurred for an investment in the product between June 2021 and June 2022.
	Average return each year	-20.4%	-7.3%	
Moderate scenario	What you might get back after costs	GBP 9'860	GBP 10'300	This type of scenario occurred for an investment in the product between February 2015 and February 2018.
	Average return each year	-1.4%	1.0%	
Favourable scenario	What you might get back after costs	GBP 12'170	GBP 12'340	This type of scenario occurred for an investment in the product between December 2018 and December 2021.
	Average return each year	21.7%	7.3%	

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV. The assets of the Fund cannot be used to pay the debts of other sub-funds.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- GBP 10'000 is invested

Investment of GBP 10'000	If you exit after 1 year	If you exit after 3 years
<b>Total costs</b>	GBP 582	GBP 1'234
<b>Annual cost impact (*)</b>	5.8%	3.9%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.9% before costs and 1.0% after costs.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay in when entering this Investment.	Up to GBP 300
Exit costs	There is no exit fee for this product.	GBP 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.73% of the value of your investment per year. This is an estimate based on actual costs over the last year.	GBP 273
Transaction costs	0.09% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	GBP 9
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	GBP 0

## How long should I hold it and can I take my money out early?

### Recommended Holding Period (RHP): 3 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

The Net Asset Value (NAV) is daily except if it is not a full bank business day in Luxembourg (each a Business Day). The NAV is calculated two (2) Business Days after the NAV date (Calculation Day). Redemptions are possible on each NAV date. All redemption requests must be received in good order by the registrar and transfer agent prior to 13:00 (Luxembourg time) three (3) Business Days prior to the Calculation Day. Redemption proceeds shall be paid within two (2) Business Days following the Calculation Day.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.
