## What is this product?

### TYPE OF PRODUCT

The Fund is a sub-fund of U ACCESS (Ireland) UCITS P.L.C., an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as an open-ended umbrella investment company (the Company) with variable capital under the laws of Ireland.

### TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

### OBJECTIVES

The Fund seeks to achieve consistent, positive absolute returns over a market cycle, typically a 3 to 4 years period, with moderate correlation to global public equity markets while reducing the market risk of the portfolio through targeted short exposure and tactical hedging.

The Fund is actively managed and not with reference to a benchmark.

The Fund may invest in U.S. and non-U.S. equity instruments (including common stocks, preferred stocks, preferred convertible stocks, American Depositary Receipts (ADRs) and/or Global Depositary Receipts (GDRs)), warrants, listed or Over-The-Counter (OTC) options, swaps and FX forward contracts. Synthetic short positions related to equity instruments are economically equivalent to short positions but implemented through exchange traded, OTC cleared or bilateral Financial Derivative Instruments (FDIs).

The Fund will not invest more than 10% in securities which are not listed, traded or dealt in on permitted markets.

The Portfolio Manager uses a fundamental long/short equity strategy and will generally invest in the consumer, financial, healthcare, industrial, technology, media and telecom sectors, without any specific geographical allocation.

The Fund does not have a sustainable investment objective but invests in companies with good Environmental, Social and Governance (ESG) practices. The assessment of ESG considerations will consist of i) sustainable growth and reducing climate impact, ii) diversity, equity and inclusion and iii) transparency and disclosure. The Portfolio Manager avoids controversial business activities such as adult entertainment, energy and natural resources, basic materials, mining, weaponry, tobacco, and utilities (revenue threshold may apply). For more detail on ESG considerations please refer to the Fund's supplement.

The level of leverage (calculated as a sum of the notional exposure of FDI being used by the Fund) is expected to be between 0% and 190% of the Net Asset Value (NAV) under normal market conditions but the leverage may exceed this range from time to time.

The Fund may invest either directly or indirectly through FDIs, up to 20% of its NAV in equities listed or traded on emerging markets which includes indirect exposure to China A-shares through equity swaps.

The Fund shall not exceed in aggregate 10% of its NAV in investments in eligible Collective Investment Schemes (CIS).

The Fund may gain exposure to financial indices compliant with the UCITS Regulations indirectly through the use of FDIs.

The Fund will invest in FDIs for investment, hedging and/or efficient portfolio management purposes.

If considered appropriate to the investment objective or where market or other factors so warrant, the Fund may be partially or fully invested in cash and/or money market instruments.

The Fund's base currency is USD.

The Fund is suitable for investors seeking a long-term investment who are willing to accept a high volatility due to the Fund's investment policy. Investors should note that holding a substantial proportion of their investment portfolio in the Fund may not be appropriate.

The recommended holding period is determined to allow sufficient time for this product to reach its objectives and provide a consistent return less dependent on market fluctuations. Nevertheless, such return is not guaranteed.

The return of the product is determined using the Net Asset Value (NAV) calculated by the Administrator. This return depends mainly on the market value fluctuations of the underlying investments.

The share currency risk in relation to the Fund's base currency is mainly hedged.

Any income received by the Fund is reinvested (capitalisation share).

### INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with average knowledge of the underlying financial instruments and some financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment over 3 years.

## What are the risks and what could I get in return?

### Risk indicator

 The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level. Poor market conditions could impact the Fund's capacity to pay you.

**Be aware of currency risk. You will receive payments in a currency other than your local currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Please refer to the prospectus for more information on the specific and material risks relevant to the Fund not included in the summary risk indicator.

This Fund does not include any protection from future market performance, so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		3 years GBP 10'000		
		If you exit after 1 year	If you exit after 3 years	
<b>Scenarios</b>				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	GBP 6'620	GBP 6'360	
	Average return each year	-33.8%	-14.0%	
Unfavourable scenario	What you might get back after costs	GBP 8'640	GBP 8'630	This type of scenario occurred for an investment in the proxy between October 2015 and October 2018.
	Average return each year	-13.6%	-4.8%	
Moderate scenario	What you might get back after costs	GBP 9'760	GBP 10'230	This type of scenario occurred for an investment in the proxy between September 2013 and September 2016.
	Average return each year	-2.4%	0.8%	
Favourable scenario	What you might get back after costs	GBP 13'870	GBP 14'500	This type of scenario occurred for an investment in the proxy then the product between December 2018 and December 2021.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with The Bank of New York Mellon SA/NV, Dublin Branch and are segregated from the assets of other sub-funds of the Company and from the assets of the Depository. The assets of the Fund cannot be used to pay the debts of other sub-funds.

In the event of insolvency of the Depository, the Fund may suffer a financial loss.

In the event of insolvency of the management company, the Fund's assets will not be affected.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time (\*)

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10'000 is invested.

Investment of GBP 10'000	If you exit after 1 year	If you exit after 3 years
<b>Total costs</b>	GBP 826	GBP 1'620
<b>Annual cost impact</b>	8.3%	5.1%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.9% before costs and 0.8% after costs.

These figures include the maximum subscription fee that the intermediary(ies) involved in the subscription process may charge (up to 5.00% of your investment). The intermediary will inform you of the actual charge.

#### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 5.00% of your investment. (payable to the intermediary(ies) - if applicable)	Up to GBP 500
Exit costs	There is no exit fee for this product.	GBP 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.32% of the value of your investment per year. This is an estimate based on actual costs over the last year.	GBP 132
Transaction costs	0.80% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	GBP 80
Incidental costs taken under specific conditions		
Performance fees	12.50% of Net Profits subject to a Historical High Water Mark. See the section in the relevant supplement of the prospectus entitled "Fees and Expenses" for further details. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation mentioned includes the average over the last 5 years.	GBP 115

## How long should I hold it and can I take my money out early?

### Recommended Holding Period (RHP): 3 years.

The RHP is determined to allow sufficient time for this product to reach its objectives and to provide a consistent return less dependent on market fluctuations. Investors should be prepared to remain invested for at least 3 years but can nevertheless redeem their investment at any time, or hold the latter for a longer period of time.

The dealing Net Asset Value (NAV) is daily except if it is not a full bank business day in Ireland or in New-York or in the United Kingdom (each a Business Day). Redemptions are possible on each NAV date. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 14:00 (Ireland time) two (2) Business Days prior to the NAV Date. Redemption proceeds shall be paid within two (2) Business Days following the redemption NAV date.

Conversion of shares is allowed within the Fund free of charge.

Please refer to the prospectus for further details.
