What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of UBAM, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 10 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

OBJECTIVES

The Fund seeks to grow your capital and generate income by investing at least 75% of its net assets in equities issued by companies having their registered office in the European Union, in the United Kingdom and/or European Economic Area.

The Fund is actively managed and may invest up to 25% of its net assets in warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities and money market instruments.

The Fund invests primarily in stocks of companies which constitute the bottom third in terms of market capitalization of all publicly listed equities. The minimum market capitalization is EUR 100 million.

To enhance the liquidity, the Fund will also invest in medium and larger capitalized companies or in liquid assets such as cash or equivalent, bonds and other debt securities.

The Fund generally seeks to invest in sustainable quality growth business models: strongly financed, well managed, competitively advantaged companies with high or improving returns and exposure to growing end markets. The Investment Manager will generally seek to pursue and engage with companies that demonstrate a willingness to implement strong ESG standards and promote an ambitious sustainability strategy as the Investment Manager believes this will enable them to be in a better position to reduce their carbon intensity, to solidify their competitive positioning and to achieve profitable growth on a sustainable basis.

The primary sustainable objective of the Fund is to promote a carbon footprint lower than the MSCI Europe Small Cap Index ("the Benchmark").

The Investment Manager performs a negative screening and a norm-based screening to filter the investment universe. ESG related information is entering the suitability screen of the stock selection process. The portfolio construction will consider ESG criteria as well as the contribution to risk that arises from ESG exposures. Company specific and portfolio factors including ESG developments are considered when constructing and monitoring the portfolio.

The ESG analysis covers 100% of the portfolio.

The Fund uses the Benchmark for performance objective.

The Benchmark is representative of the investment universe and of the risk profile of the Fund. Although the Fund's securities will primarily correspond to those of the Benchmark, the Investment Manager has significant discretion to deviate from the Benchmark's constituents in respect to countries, sectors, issuers and instruments, in order to take advantage of specific investment opportunities.

The Benchmark is not aligned with the environmental and/or social characteristics promoted by the Fund.

The Fund's base currency is EUR.

As an equity fund, its holdings can move in line with or return less than the broad stock market, so investors should be aware that the value of their holdings could fall and that they may not get back their initial investment.

Any income received by the Fund is distributed (distribution share class).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment over 5 years.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		5 years GBP 10'000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	GBP 2'390	GBP 2'240	
	Average return each year	-76.1%	-25.9%	
Unfavourable scenario	What you might get back after costs	GBP 7'790	GBP 7'850	This type of scenario occurred for an investment in the product between June 2021 and June 2022.
	Average return each year	-22.1%	-4.7%	
Moderate scenario	What you might get back after costs	GBP 10'810	GBP 15'820	This type of scenario occurred for an investment in the proxy then the product between November 2015 and November 2020.
	Average return each year	8.1%	9.6%	
Favourable scenario	What you might get back after costs	GBP 16'380	GBP 22'540	This type of scenario occurred for an investment in the proxy then the product between July 2012 and July 2017.
	Average return each year	63.8%	17.6%	

The stress scenario shows what you might get back in extreme market circumstances.

What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV. The assets of the Fund cannot be used to pay the debts of other sub-funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- GBP 10'000 is invested

Investment of GBP 10'000	If you exit after 1 year	If you exit after 5 years
Total costs	GBP 470	GBP 1'794
Annual cost impact (*)	4.7%	2.4%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.0% before costs and 9.6% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay in when entering this Investment.	Up to GBP 300

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 5 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

The Net Asset Value (NAV) is daily except if it is not a full bank business day in Luxembourg (each a Business Day). The NAV is calculated the following Business Day (Calculation Day). Redemptions are possible on each NAV date. All redemption requests must be received in good order by the registrar and transfer agent prior to 13:00 (Luxembourg time) on the NAV date. Redemption proceeds shall be paid within two (2) Business Days following the Calculation Day.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.
