

UBAM (CH) - Gold+ - UK Reporting Fund Status

Report to Participants, Account Period: 01.05.2019 to 30.04.2020

The Fund has obtained UK Reporting Fund status and this report is provided to investors in accordance with the Offshore Funds (Tax) Regulations 2009 to enable investors to meet their UK tax obligations.

The Fund is treated as a Transparent Reporting Fund and as such is treated as tax transparent for income tax purposes and opaque for capital gains tax purposes for UK investors. For tax purposes the Funds' income and expenses are deemed to arise directly in the hands of UK investors when they arise to the Fund, but capital returns from the underlying investments held by the Fund are not taxed when they are realised and instead a taxable capital gain or loss arises when the units in the Fund are disposed of.

The Fund does not operate equalisation for UK tax reporting purposes, and all amounts are reported without equalisation.

How investors should use this information:

The above figures are shown on a cumulative basis for investors who have held units throughout the entire period, and have been converted into USD at the daily exchange rate applying when the income or expense arose. For investors who bought or sold units during the reporting period a table of the income and expenses arising on a daily basis is provided separately below.

An investor who has held units throughout the entire period should take the income or expense per unit stated above and multiply this figure by the number of units held to calculate the income and expenses to be reported for UK income tax purposes for the relevant income tax period.

An investor who bought/sold units part way through the period should calculate their taxable income and expense figures by taking the cumulative income figure from the table below at the date of disposal and subtracting the income figure at the date of acquisition. Where the units were held prior to the start of the period but sold part way through the period, the investor should just take the cumulative figure at the date of disposal. The income or expense can be allocated to the appropriate income tax period by adjusting for the cumulative income or expense at 5 April.

Investors holding units in the fund as at **30 April 2020** should also include any "Excess Reportable Income" in their tax returns, which is calculated by taking the excess reportable income per unit amounts reported above and multiplying by the number of units held at **30 April 2020**.

The Fund remains a reporting fund as at the date of this report.

The excess amounts arise on the Fund distribution date, which is **31 October 2020**.

Note 1: Expenses per unit are based on the total expenses of management incurred by the Fund. Certain investors may be able to claim tax relief for management expenses incurred by the Fund.

The information provided above is not intended to constitute legal, tax or investment advice, and investors are advised to seek their own advice on the tax consequences of an investment in the Fund.

UBAM (CH) - Gold+ - UK Reporting Fund Status

Report to Participants, Account Period: 01.05.2019 to 30.04.2020

The Fund has obtained UK Reporting Fund status and this report is provided to investors in accordance with the Offshore Funds (Tax) Regulations 2009 to enable investors to meet their UK tax obligations.

The Fund is treated as a Transparent Reporting Fund and as such is treated as tax transparent for income tax purposes and opaque for capital gains tax purposes for UK investors. For tax purposes the Funds' income and expenses are deemed to arise directly in the hands of UK investors when they arise to the Fund, but capital returns from the underlying investments held by the Fund are not taxed when they are realised and instead a taxable capital gain or loss arises when the units in the Fund are disposed of.

The Fund does not operate equalisation for UK tax reporting purposes, and all amounts are reported without equalisation.

How investors should use this information:

The above figures are shown on a cumulative basis for investors who have held units throughout the entire period, and have been converted into USD at the daily exchange rate applying when the income or expense arose. For investors who bought or sold units during the reporting period a table of the income and expenses arising on a daily basis is provided separately below.

An investor who has held units throughout the entire period should take the income or expense per unit stated above and multiply this figure by the number of units held to calculate the income and expenses to be reported for UK income tax purposes for the relevant income tax period.

An investor who bought/sold units part way through the period should calculate their taxable income and expense figures by taking the cumulative income figure from the table below at the date of disposal and subtracting the income figure at the date of acquisition. Where the units were held prior to the start of the period but sold part way through the period, the investor should just take the cumulative figure at the date of disposal. The income or expense can be allocated to the appropriate income tax period by adjusting for the cumulative income or expense at 5 April.

Investors holding units in the fund as at **30 April 2020** should also include any "Excess Reportable Income" in their tax returns, which is calculated by taking the excess reportable income per unit amounts reported above and multiplying by the number of units held at **30 April 2020**.

The Fund remains a reporting fund as at the date of this report.

The excess amounts arise on the Fund distribution date, which is **31 October 2020**.

Note 1: Expenses per unit are based on the total expenses of management incurred by the Fund. Certain investors may be able to claim tax relief for management expenses incurred by the Fund.

The information provided above is not intended to constitute legal, tax or investment advice, and investors are advised to seek their own advice on the tax consequences of an investment in the Fund.

UBAM (CH) - Gold+ - UK Reporting Fund Status

Report to Participants, Account Period: 01.05.2019 to 30.04.2020

The Fund has obtained UK Reporting Fund status and this report is provided to investors in accordance with the Offshore Funds (Tax) Regulations 2009 to enable investors to meet their UK tax obligations.

The Fund is treated as a Transparent Reporting Fund and as such is treated as tax transparent for income tax purposes and opaque for capital gains tax purposes for UK investors. For tax purposes the Funds' income and expenses are deemed to arise directly in the hands of UK investors when they arise to the Fund, but capital returns from the underlying investments held by the Fund are not taxed when they are realised and instead a taxable capital gain or loss arises when the units in the Fund are disposed of.

The Fund does not operate equalisation for UK tax reporting purposes, and all amounts are reported without equalisation.

How investors should use this information:

The above figures are shown on a cumulative basis for investors who have held units throughout the entire period, and have been converted into USD at the daily exchange rate applying when the income or expense arose. For investors who bought or sold units during the reporting period a table of the income and expenses arising on a daily basis is provided separately below.

An investor who has held units throughout the entire period should take the income or expense per unit stated above and multiply this figure by the number of units held to calculate the income and expenses to be reported for UK income tax purposes for the relevant income tax period.

An investor who bought/sold units part way through the period should calculate their taxable income and expense figures by taking the cumulative income figure from the table below at the date of disposal and subtracting the income figure at the date of acquisition. Where the units were held prior to the start of the period but sold part way through the period, the investor should just take the cumulative figure at the date of disposal. The income or expense can be allocated to the appropriate income tax period by adjusting for the cumulative income or expense at 5 April.

Investors holding units in the fund as at **30 April 2020** should also include any "Excess Reportable Income" in their tax returns, which is calculated by taking the excess reportable income per unit amounts reported above and multiplying by the number of units held at **30 April 2020**.

The Fund remains a reporting fund as at the date of this report.

The excess amounts arise on the Fund distribution date, which is **31 October 2020**.

Note 1: Expenses per unit are based on the total expenses of management incurred by the Fund. Certain investors may be able to claim tax relief for management expenses incurred by the Fund.

The information provided above is not intended to constitute legal, tax or investment advice, and investors are advised to seek their own advice on the tax consequences of an investment in the Fund.

UBAM (CH) - Gold+ - UK Reporting Fund Status

Report to Participants, Account Period: 01.05.2019 to 30.04.2020

The Fund has obtained UK Reporting Fund status and this report is provided to investors in accordance with the Offshore Funds (Tax) Regulations 2009 to enable investors to meet their UK tax obligations.

The Fund is treated as a Transparent Reporting Fund and as such is treated as tax transparent for income tax purposes and opaque for capital gains tax purposes for UK investors. For tax purposes the Funds' income and expenses are deemed to arise directly in the hands of UK investors when they arise to the Fund, but capital returns from the underlying investments held by the Fund are not taxed when they are realised and instead a taxable capital gain or loss arises when the units in the Fund are disposed of.

The Fund does not operate equalisation for UK tax reporting purposes, and all amounts are reported without equalisation.

How investors should use this information:

The above figures are shown on a cumulative basis for investors who have held units throughout the entire period, and have been converted into USD at the daily exchange rate applying when the income or expense arose. For investors who bought or sold units during the reporting period a table of the income and expenses arising on a daily basis is provided separately below.

An investor who has held units throughout the entire period should take the income or expense per unit stated above and multiply this figure by the number of units held to calculate the income and expenses to be reported for UK income tax purposes for the relevant income tax period.

An investor who bought/sold units part way through the period should calculate their taxable income and expense figures by taking the cumulative income figure from the table below at the date of disposal and subtracting the income figure at the date of acquisition. Where the units were held prior to the start of the period but sold part way through the period, the investor should just take the cumulative figure at the date of disposal. The income or expense can be allocated to the appropriate income tax period by adjusting for the cumulative income or expense at 5 April.

Investors holding units in the fund as at **30 April 2020** should also include any "Excess Reportable Income" in their tax returns, which is calculated by taking the excess reportable income per unit amounts reported above and multiplying by the number of units held at **30 April 2020**.

The Fund remains a reporting fund as at the date of this report.

The excess amounts arise on the Fund distribution date, which is **31 October 2020**.

Note 1: Expenses per unit are based on the total expenses of management incurred by the Fund. Certain investors may be able to claim tax relief for management expenses incurred by the Fund.

The information provided above is not intended to constitute legal, tax or investment advice, and investors are advised to seek their own advice on the tax consequences of an investment in the Fund.

UBAM (CH) - Gold+ - UK Reporting Fund Status

Report to Participants, Account Period: 01.05.2019 to 30.04.2020

The Fund has obtained UK Reporting Fund status and this report is provided to investors in accordance with the Offshore Funds (Tax) Regulations 2009 to enable investors to meet their UK tax obligations.

The Fund is treated as a Transparent Reporting Fund and as such is treated as tax transparent for income tax purposes and opaque for capital gains tax purposes for UK investors. For tax purposes the Funds' income and expenses are deemed to arise directly in the hands of UK investors when they arise to the Fund, but capital returns from the underlying investments held by the Fund are not taxed when they are realised and instead a taxable capital gain or loss arises when the units in the Fund are disposed of.

The Fund does not operate equalisation for UK tax reporting purposes, and all amounts are reported without equalisation.

How investors should use this information:

The above figures are shown on a cumulative basis for investors who have held units throughout the entire period, and have been converted into USD at the daily exchange rate applying when the income or expense arose. For investors who bought or sold units during the reporting period a table of the income and expenses arising on a daily basis is provided separately below.

An investor who has held units throughout the entire period should take the income or expense per unit stated above and multiply this figure by the number of units held to calculate the income and expenses to be reported for UK income tax purposes for the relevant income tax period.

An investor who bought/sold units part way through the period should calculate their taxable income and expense figures by taking the cumulative income figure from the table below at the date of disposal and subtracting the income figure at the date of acquisition. Where the units were held prior to the start of the period but sold part way through the period, the investor should just take the cumulative figure at the date of disposal. The income or expense can be allocated to the appropriate income tax period by adjusting for the cumulative income or expense at 5 April.

Investors holding units in the fund as at **30 April 2020** should also include any "Excess Reportable Income" in their tax returns, which is calculated by taking the excess reportable income per unit amounts reported above and multiplying by the number of units held at **30 April 2020**.

The Fund remains a reporting fund as at the date of this report.

The excess amounts arise on the Fund distribution date, which is **31 October 2020**.

Note 1: Expenses per unit are based on the total expenses of management incurred by the Fund. Certain investors may be able to claim tax relief for management expenses incurred by the Fund.

The information provided above is not intended to constitute legal, tax or investment advice, and investors are advised to seek their own advice on the tax consequences of an investment in the Fund.

UBAM (CH) - High Grade CHF Income - UK Reporting Fund Status

Report to Participants, Account Period: 01.05.2018 to 30.04.2019

The Fund has obtained UK Reporting Fund status and this report is provided to investors in accordance with the Offshore Funds (Tax) Regulations 2009 to enable investors to meet their UK tax obligations.

The Fund is treated as a Transparent Reporting Fund and as such is treated as tax transparent for income tax purposes and opaque for capital gains tax purposes for UK investors. For tax purposes the Funds' income and expenses are deemed to arise directly in the hands of UK investors when they arise to the Fund, but capital returns from the underlying investments held by the Fund are not taxed when they are realised and instead a taxable capital gain or loss arises when the units in the Fund are disposed of.

The Fund does not operate equalisation for UK tax reporting purposes, and all amounts are reported without equalisation.

How investors should use this information:

The above figures are shown on a cumulative basis for investors who have held units throughout the entire period reported in **CHF**. For investors who bought or sold units during the reporting period a table of the income and expenses arising on a daily basis is provided separately below. An investor who has held units throughout the entire period should take the income or expense per unit stated above and multiply this figure by the number of units held to calculate the income and expenses to be reported for UK income tax purposes for the relevant income tax period. An investor who bought/sold units part way through the period should calculate their taxable income and expense figures by taking the cumulative income figure from the table below at the date of disposal and subtracting the income figure at the date of acquisition. Where the units were held prior to the start of the period but sold part way through the period, the investor should just take the cumulative figure at the date of disposal. The income or expense can be allocated to the appropriate income tax period by adjusting for the cumulative income or expense at 5 April.

Investors holding units in the fund as at **30 April 2019** should also include any "Excess Reportable Income" in their tax returns, which is calculated by taking the excess reportable income per unit amounts reported above and multiplying by the number of units held at **30 April 2019**. The excess amounts arise on the Fund distribution date, which is **31 October 2019**.

The Fund remains a reporting fund as at the date of this report.

Note 1: Expenses per unit are based on the total expenses of management incurred by the Fund. Certain investors may be able to claim tax relief for management expenses incurred by the Fund.

Note 2: Swap Interest relates to the net position on Interest received from swaps and interest paid on swaps.

The information provided above is not intended to constitute legal, tax or investment advice, and investors are advised to seek their own advice on the tax consequences of an investment in the Fund.
