Important Information

This prospectus (the "Prospectus") comprises information relating to UBP PG, (the "Fund") which is registered under Part II of the Luxembourg law of 17th December 2010 relating to undertakings for collective investment (the "Law"). Such registration does not, however, imply approval by any Luxembourg authority of the contents of this Prospectus or of the portfolio of assets held by the Fund. Any representation to the contrary is unauthorised and unlawful. This Prospectus does not constitute an offer or solicitation in any jurisdiction in which an offer or solicitation would be unlawful. The shares in the Fund (the "Shares") are transferable subject to certain conditions and will not be transferable under any circumstances to U.S. Persons. The Fund qualifies as an AIF (alternative investment fund) under the law of 12 July 2013 (the "AIFM Law") implementing the 2011/61/UE Directive on the alternative investment fund managers ("AIFMD"). UBP Asset Management (Europe) S.A. shall act as the appointed alternative investment fund manager ("AIFM") for the Fund.

Shares in the Fund may not be acquired or held, directly or indirectly, by a U.S. Person (as defined below); neither is the transfer of Fund Shares to such person authorised.

I. STRUCTURE OF THE FUND

The Fund is an open-ended investment company which was set up for an unlimited duration in Luxembourg in the form of a “*société anonyme*” under the laws of the Grand Duchy of Luxembourg and qualifies as a “*société d’investissement à capital variable*”. It also qualifies as an alternative investment fund within the meaning of the AIFM Law. The Fund is authorised as an undertaking for collective investment (“UCI”) under Part II of the Law. The Fund is an umbrella fund and as such operates separate Sub-Funds, each of which is represented by one or more Classes of Shares. The Sub-Funds are distinguished by their specific investment policy or any other specific features, as further described in the Appendix to the Prospectus for each Sub-Fund.

The Fund constitutes a single legal entity, but the assets of each Sub-Fund shall be invested for the exclusive benefit of the Shareholders of the corresponding Sub-Fund and the assets of a specific Sub-Fund are solely accountable for the liabilities, commitments and obligations of that Sub-Fund.

The various Share classes of the Fund may be listed on the Luxembourg stock exchange or with others stock exchange at the Board of Directors discretion.

The Board of Directors may at any time resolve to set up new Sub-Funds and/or create within each Sub-Fund one or more Classes of Shares and this Prospectus will be updated accordingly. The Board of Directors may also at any time resolve to close a Sub-Fund, or one or more Classes of Shares within a Sub-Fund, to further subscriptions.

The Fund was incorporated in Luxembourg on 19th October 2016. The capital of the Fund shall be equal at all times to the net assets of the Fund. The minimum capital of the Fund, as prescribed by Law, is the equivalent in US\$ of Euro 1,250,000. This minimum must be reached within a period of 6 months following the authorisation of the Fund. The Articles were published on the RESA site on 24th October 2016. The Fund is incorporated for an unlimited period.

The Fund was incorporated with an initial capital of US\$ 38’000 divided into 38 fully paid up Shares of US\$ 1’000 each.

The Fund is registered with *the Registre de Commerce et des Sociétés*, Luxembourg under number RCS B 209 776. The Articles have been deposited with the *Registre de Commerce et des Sociétés*, Luxembourg.

Under Luxembourg law and its Articles, the Fund is authorised to issue an unlimited number of Shares, all of which are without par value.

The reference currency of the Fund is the US\$ and all the financial statements of the Fund will be expressed in US\$.

II. PURPOSE, INVESTMENT STRATEGY OBJECTIVES AND POLICIES

The Fund’s main objective is to achieve long-term growth of its assets.

Each Sub-Fund shall pursue a distinct investment policy and the investment restrictions may differ for each of them. The investment policy and specific investment restrictions are disclosed for each Sub-Fund in the relevant Appendix to the Prospectus.

SFDR (Sustainable Finance Disclosure Regulation)

SFDR classification:

In accordance with Article 6 of SFDR, the AIFM, in consultation with the Co-Investment Managers, has determined that the Sub-Fund UBP PG - ACTIVE INCOME does not pursue an investment approach that explicitly promotes environmental or social characteristics nor has sustainable investment as its objective. The Sub-Fund's investment policy does not take into account the EU criteria for environmentally sustainable economic activities.

Notwithstanding this classification, in managing the investments of the Sub-Fund, the Co-Investment Managers take account of certain sustainability risks arising and of the potential financial impact of such risks on the return of an investment.

UBP Group is also signatory of the United Nations Principles for Responsible Investment (UN PRI) since March 2012.

Integration of Sustainability Risks

By taking sustainability risks into consideration during its investment decision making process, the intention of the Co-Investment Managers is to manage such sustainability risks in a way that those risks do not have a material impact on the performance of the Sub-Fund. The Co-Investment Managers consider certain sustainability risks in their investment decision process and seek to mitigate those risks by complying with the Co-Investment Managers' Responsible Investment Policy, which excludes controversial weapons and other contentious business activities (such as tobacco or thermal coal extraction, – revenue thresholds apply). This policy is available on <https://www.ubp.com/en/investment-expertise/responsible-investment>.

Likely impact on returns

While sustainability factors are considered by the Co-Investment Managers, sustainability risks are currently not likely to have a material impact on the returns of the Sub-Fund considering the integration of the sustainability risks in the investment process and the diversification of the investments.

Assessment of sustainability risks is complex and requires subjective judgments, which may be based on data, which is difficult to obtain and/or incomplete, estimated, out of date or otherwise materially inaccurate. Even when identified, there can be no guarantee that the Co-Investment Managers' assessment will correctly determine the impact of sustainability risks on the Sub-Fund's investments.

III. RISK WARNINGS

The investments of the Fund are subject to market fluctuations and other risks inherent in any investment. It cannot therefore be guaranteed that the investment objectives will be achieved. Investors must therefore be aware that the value of their investment may fall as well as rise and that past performance is not a guide to future performances.

1. Business Risk

The Fund is a recently established entity and there is little operating history by which to evaluate its likely future performance. There can therefore be no assurance that the Fund will achieve its investment objective in respect of any particular Sub-Fund.

2. Political and/or regulatory risks

The value of a Sub-Fund's asset may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investment may be made. Furthermore, the legal infrastructure and accounting, auditing and reporting standards in certain countries in which investment may be made may not provide

the same degree of investor protection or information to investors as would generally apply in major securities markets.

3. Foreign exchange / currency risk

Although Shares in a Sub-Fund may be denominated in one or more currencies, these may be different from the reference currency of the Sub-Fund and the Sub-Fund may invest its assets in securities denominated in a wide range of currencies, some of which may not be freely convertible. The Net Asset Value of the Sub-Fund as expressed in its reference currency and the Net Asset Value of the different Classes of Shares denominated in a currency other than the reference currency of the Sub-Fund may fluctuate in accordance with the changes in the foreign exchange rate between the relevant currencies. The Sub-Fund may also be exposed to foreign exchange rate fluctuations with respect to the currencies in which the Sub-Fund's investments are denominated. The Sub-Fund may therefore be exposed to a foreign exchange/currency risk. It may not be possible or practicable to hedge against the consequent foreign exchange/ currency risk exposure.

4. Exogenous Regulatory Risks

Changes in treaties, laws and regulations (or in the interpretation thereof) occurring from time to time in the various jurisdictions in which the Fund will invest may worsen the legal and tax constraints within which the Fund will operate and, as a result, may require structuring and financing alternatives to be identified and implemented and lead to increased legal costs and reduced returns. Any change in law that originates from European Union legislation is likely to affect the laws and regulations of most of the countries in which the Fund plans to invest.

5. Conflicts of Interest

Prospective investors should note that Related Parties may purchase Shares in the Fund unless otherwise provided in the relevant Appendix to the Prospectus.

Conflicts of interests may arise between the Fund and the persons or entities involved in the management and custody of the Fund. Please refer to section 10. Risk related to investments in UCI.

6. Market risk

Although it is intended that investments of each Sub-Fund will be diversified, they are subject to normal market fluctuations and to the risks inherent to investments in equities, debt securities, currency instruments, derivatives and other similar instruments.

The Fund may invest in Investment Funds active on various markets throughout the world. Political changes, changes to the applicable legal framework, fiscal measures or currency risks on these markets may have a negative impact on the assets or the financial results of the Investment Funds and, consequently, of the Fund.

7. Possible effect of substantial redemptions

Substantial redemptions at the Shareholders request may necessitate the Fund to liquidate investments and/or borrow money. It is possible that losses may be incurred due to such liquidations which might otherwise not have been incurred. The costs of borrowing will be borne by the Fund.

Investors should pay attention to the section VI. Dealing in Shares - Redemptions - Large Redemptions.

8. Risks linked to the use of derivative instruments and other specific investment techniques and financial instruments

Careful use of derivative instruments, such as but not limited to options, futures, swaps, CDS, etc., as well as of other specific investment techniques and financial instruments, may well represent a source of advantages, but also involves different risks than those linked to traditional forms of investment that, in

certain cases, may even be greater. The following sections present a general description of the risk factors and key aspects concerning the use of derivative instruments as well as other specific investment techniques and financial instruments, which investors must take into consideration before any investment in a Sub-Fund.

Market risks: in general, these risks are linked to all forms of investment; as such, the change in the value of a specific financial instrument may in certain cases go against a Sub-Fund's interests.

Control and supervision: derivative instruments as well as other specific investment techniques and financial instruments represent special products that require different investments techniques and risk analyses than equities and bonds. Using a financial derivative instrument presupposes not only knowledge of the underlying instrument, but also knowledge of the derivative instrument itself, while changes in the value of the latter may not be able to be monitored under all possible market conditions. More specifically, the use and complexity of such products require suitable control mechanisms to be maintained for the supervision of transactions entered into, and the risks incurred by Sub-Funds in relation to such products and changes in the stock price, interest rate and exchange rate concerned must be able to be determined.

Liquidity risks: there are liquidity risks when a specific security is difficult to buy or sell. If there is a high volume of transactions or if markets are partially illiquid (notably in the event of many instruments traded on an individual basis), it may prove to be impossible to carry out a transaction or unwind a position at a beneficial stock price under certain circumstances.

Counterparty risks: with derivative instruments traded over the counter, the counterparty for a transaction may not be able to honour its commitments and/or contracts may be cancelled, for instance in the event of bankruptcy, subsequent illegality or changes to the legal prescriptions concerning taxation or the presentation of accounts compared with those in force when entering into the contract linked to over-the-counter derivative instruments.

Other risks: the other risks inherent to the use of derivative instruments as well as other specific investment techniques and financial instruments include the risk of a differing valuation of financial products, resulting from the application of different accredited valuation methods and the lack of any absolute correlation (model risks) between the derivative products and the underlying transferable securities, interest rates, exchange rates and indexes. Many derivative instruments, and particularly over-the-counter derivative instruments, are complex and often valued subjectively. Inaccurate valuations may result in higher cash payments to the counterparty or impairments in value for a Sub-Fund. The derivative instruments do not always fully or even to a great extent reflect changes in the transferable securities, interest rates, exchange rates or indexes which they are supposed to be aligned with. As such, the use of derivative instruments as well as other specific investment techniques and financial instruments by a Sub-Fund does not necessarily represent an effective means of achieving a Sub-Fund's investment objective and may even prove to be counter-productive.

9. Risk related to the use of leverage

The Sub-Funds may make use of financial derivative instruments and other efficient portfolio management techniques. The use of such instruments and techniques has a leverage effect, which creates the potential for more significant profits, but also gives rise to a higher risk that losses will exceed the amount invested. The use of leverage therefore increases the overall risk involved in investing in the Fund's shares.

Shareholders should note that the sum of notional calculation methodology does not take into account any netting and hedging arrangements a Sub-Fund may have in place. In addition they should note that leverage per se is not an accurate risk indicator. A high degree of leverage does not necessarily imply a higher degree of risk.

10. Risk related to investments in UCI

There is no assurance that the liquidity of the investments of Target UCIs will always be sufficient to meet redemption requests as and when made. Any lack of liquidity may affect the liquidity of the shares of the Fund and the value of its investments.

For such reasons the treatment of redemption requests may be postponed in exceptional circumstances including if a lack of liquidity were to result in difficulties to determine the Net Asset Value of the shares of the Fund and consequently a suspension of issues and redemptions.

Conflicts of interests may arise between the Fund and the persons or entities involved in the management and custody of the Fund. The Investment Manager may manage assets of other clients that make investments similar to those made on behalf of the Target UCIs. Such clients could thus compete for the same trades or investments and whilst available investments or opportunities for each client are generally allocated in a manner to be believed equitable to each, some of those allocation procedures may adversely affect the price paid or received for investments or the size of positions obtained or disposed.

Conflicts may also arise as a result of the other services provided by the Investment Manager or its affiliates which may provide advisory, custody or other services to the Fund, to other clients and some of the Target UCIs. Similarly the Directors may also be directors of Target UCIs and the interests of such Target UCIs and of the Fund could result in conflicts.

Generally there may be conflicts of interests between the best interests of the Fund and an interest of the Investment Manager and its affiliates and the Directors to generate fees, commissions and other revenues. In the event that such a conflict of interests arises, the Directors will endeavour to ensure that it is resolved in a fair manner.

11. Specific Risk Factors of the Sub-Funds

Please refer to the relevant Appendix to the Prospectus for specific risk factors applying to each of the Sub-Funds.

12. Sustainability Risks

Sustainability risks are environmental, social or governance (“ESG”) events or conditions which, if they occur, have or may potentially have significant negative impacts on the assets, financial and earning situation or reputation of a supervised entity. Examples of such risks may include, but are not limited to, climate change, biodiversity, supply chain management, product liability or business ethics.

Furthermore, additional risks may result from the inherent limits of ESG approaches, as there is a lack of standardization in the rules governing ESG criteria and the reporting of ESG indicators by sovereign or corporate entities. There is no guarantee that Sub-Fund which integrate ESG into their investment process will take into consideration all the relevant indicators or that such indicators are all comparable. Furthermore, the Sub-Fund may rely on external ESG research providers for their ESG data. Such data may be incomplete, inaccurate or unavailable and differ from other sources of data. The use of different data sources or providers may ultimately have an impact on the investment universe or on the Sub-Fund’s portfolio and performance.

IV. BENCHMARKS / INDICES

All benchmarks and indices mentioned in the present prospectus fulfil the criteria stated in Article 9 of the Grand-Ducal Regulation of February 8, 2008, namely:

- (i) they are sufficiently diversified, in that the following criteria are fulfilled:
 - a. the index is composed in such a way that price movements or trading activities regarding one component do not unduly influence the performance of the whole index;

- b. where the index is composed of assets referred to in Article 41 (1) of the amended law of 20 December 2002, its composition is at least diversified in accordance with Article 44 of that law;
 - c. where the index is composed of assets other than those referred to in Article 41 (1) of the amended law of 20 December 2002, it is diversified in a way which is equivalent to that provided for in Article 44 of that law;
- (ii) they represent an adequate benchmark for the market to which they refer, in that the following criteria are fulfilled:
- a. the index measures the performance of a representative group of underlyings in a relevant and appropriate way;
 - b. the index is revised or rebalanced periodically to ensure that it continues to reflect the markets to which it refers following criteria which are publicly available;
 - c. the underlyings are sufficiently liquid, which allows users to replicate the index, if necessary;
- (iii) they are published in an appropriate manner, in that the following criteria are fulfilled:
- a. their publication process relies on sound procedures to collect prices and to calculate and to subsequently publish the index value, including pricing procedures for components where a market price is not available;
 - b. material information on matters such as index calculation, rebalancing methodologies, index changes or any operational difficulties in providing timely or accurate information is provided on a wide and timely basis.

Where the composition of assets which are used as underlyings by financial derivatives in accordance with Article 41 (1) of the amended law of 20 December 2002 does not fulfil the criteria set out in paragraph (1) of this Article, those financial derivatives shall, where they comply with the criteria set out in Article 8 (1) of this regulation, be regarded as financial derivatives on a combination of the assets referred to in (i), (ii) and (iii) of Article 8 (1) a) of the grand ducal regulation of February 8, 2008.

Under the Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the “Benchmarks Regulation”), the benchmark administrator and/or the benchmark will appear on the register of administrators and benchmarks maintained by ESMA (the “Register”). Such list is available on <https://registers.esma.europa.eu/publication> .

Benchmark administrators not located in the EU whose indices are used by the Fund benefit from the transitional arrangements afforded under the Benchmark Regulation and accordingly may not appear on the Register.

As at the date of this prospectus, the following index is used:

Sub-Fund	Index		
	Name	Administrator	Status
UBP PG - Active Income	ICE BofA Fed Funds Effective Rate Index	ICE Data Indices LLC (EMMI)	Registered

The Management Company maintains a written plan setting out the actions that will be taken in the event that a benchmark materially changes or ceases to be provided in accordance with article 28 of the Benchmark Regulation. The content of such plan can be provided free of charge upon request at the registered office of the Management Company.

The Sub-Fund’s investment objective does not aim to replicate the benchmarks nor are the benchmarks intended to define the Sub-Fund’s investment universe. Benchmarks may not be representative of the Sub-Fund’s risk profile.

The SICAV’s Board of Directors may replace the benchmark if it undergoes substantial modifications or ceases to be published. Should that happen, a notice will be sent to the shareholders and the

Prospectus will be updated. When used, the benchmark will be specified in the investment policy of the concerned Sub-Fund.

V. INVESTMENT RESTRICTIONS

The Fund is subject to and will conduct its investment operations in compliance with the CSSF Circular 07/309 and the following general investment restrictions. The investment policy of a Sub-Fund may be subject to different or additional investment restrictions than those provided below, in which case such different or additional restrictions are disclosed in the relevant Appendix to the Prospectus.

1. Investments in units or shares issued by Target UCIs

- (a) Each Sub-Fund may, in principle, not invest more than twenty per cent (20%) of its net assets in units or shares issued by the same Target UCI. For the purpose of this twenty per cent (20%) limit, each sub-fund of a Target UCI with multiple sub-funds is to be considered as a distinct Target UCI provided that the principle of segregation of the commitments of the different sub-funds towards third parties is ensured. Each Sub-Fund may hold more than fifty per cent (50%) of the units or shares of a Target UCI, provided that, if the Target UCI is a fund with multiple sub-funds, the investment of the Sub-Fund in the legal entity constituting the Target UCI represents less than fifty per cent (50%) of the net assets of the Sub-Fund.
- (b) These restrictions are not applicable to the acquisition of units or shares of Target UCIs if such Target UCIs are subject to risk diversification requirements comparable to those applicable to UCIs which are subject to Part II of the 2010 Law and if such Target UCIs are subject in their home country to a permanent supervision by a supervisory authority set up by law in order to ensure the protection of investors. This derogation may not result in an excessive concentration of the investments of any Sub-Fund in one single Target UCI provided that for the purpose of this limitation, each sub-fund of a Target UCI with multiple sub-funds is to be considered as a distinct Target UCI provided that the principle of segregation of the commitments of the different sub-funds towards third parties is ensured.
- (c) The Sub-Funds investing principally in Target UCIs must make sure that their portfolio of Target UCIs presents appropriate liquidity features to enable the respective Sub-Funds to meet their obligation to redeem their Shares.

2. Investments in transferable securities other than shares or units issued by UCI

- (a) Each Sub-Fund may not invest more than twenty per cent (20%) of its net assets in securities issued by one and the same issuer.
- (b) Each Sub-Fund may not acquire more than ten per cent (10%) of the securities of the same kind issued by one and the same issuer.
- (c) Each Sub-Fund may not invest more than ten per cent (10%) of its net assets in securities which are not quoted on a stock exchange or dealt in on an organised market which functions regularly and is recognised and open to the public. This restriction does not apply to money-market instruments traded on a regulated market which functions regularly and securities for which an application has been submitted for listing on a stock exchange or another regulated market which functions regularly and is recognised and open to the public, subject to the said application being approved within one year of the issue of the security concerned at the latest.

The restrictions stipulated under a), b) and c) above do not apply to securities issued or guaranteed by an OECD Member State, by their territorial public authorities or by, regional or world-level European Union organisations.

3. Use of financial derivatives

Financial derivative instruments may be used for both efficient portfolio management and to hedge against market and currency risks.

SFTs and TRS

Securities Financing Transaction (SFT) (i) a repurchase transaction; (ii) securities lending and securities borrowing; (iii) a margin lending transaction as defined under the SFTR

SFT Agent any person involved in SFTs as agent, broker, collateral agent or service provider and that is paid fees, commissions, costs or expenses out of the SICAV's assets or any SICAV's assets

SFTR Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012

TRS total return swap, i.e., a derivative contract as defined in point (7) of Article 2 of Regulation (EU) No 648/2012 in which one counterparty transfers the total economic performance, including income from interest and fees, gains and losses from price movements, and credit losses, of a reference obligation to another counterparty.

The SICAV is not authorised to enter into any securities financing transaction as defined in the SFTR or total return swaps or other financial derivative instruments with similar characteristics. Should the SICAV decide to enter into this type of operations in the future, the prospectus would be updated in accordance with the relevant regulations and CSSF Circulars in force.

4. Excess of limits

The restrictions set forth above shall only be applicable at the time when the relevant investment is made and need not to be complied with when exercising subscription rights attaching to securities, which form part of the assets of the Fund.

If any of the above percentages are exceeded as a result of the exercise of subscription rights or as a result of any events other than the making of investments, the situation shall be remedied taking due account of the interests of the Shareholders.

Each Sub-Fund is authorised not to comply with the above investment restrictions for a period of six months following the date of its launch, while ensuring the observance of the principle of risk-spreading.

VI. SHARES

Shares will be issued in registered form only. Shareholders shall receive a confirmation of their shareholding.

Fractions of Shares up to 3 decimal places will be issued if so decided by the Board of Directors. Such fractions of Shares shall not be entitled to vote but shall be entitled to participate in the net assets and any distributions attributable to the relevant Class of Shares on a pro rata basis.

All Shares must be fully paid-up; they are of no par value and carry no preferential or pre-emptive rights. Each Share of the Fund, irrespective of its class or net asset value, is entitled to one vote at any general meeting of Shareholders, in compliance with Luxembourg law and the Articles.

VII. DEALING IN SHARES

8. Subscription in kind

The Board of Directors may decide to issue Shares against contribution in kind in accordance with Luxembourg law. The assets contributed must be valued in a report issued by the Fund's auditor, to the extent required by Luxembourg law. Any costs incurred in connection with a contribution in kind shall be borne by the relevant Shareholder.

9. Payment of Subscription Price

The full Subscription Price of the Shares subscribed must be received in cleared funds by the Depositary or its agent in the reference currency of the Class concerned no later than the date specified in the relevant Appendix to the Prospectus. Unless otherwise specified in the relevant Appendix to the Prospectus, no interest will be paid on payments received prior to the closing date of any initial offer period or prior to any NAV Date.

10. Acceptance of Subscriptions

The Board of Directors reserves the right to accept or refuse for any reason any application to subscribe Shares in whole or in part.

11. Suspension of Subscriptions

The Board of Directors will suspend the issue of Shares of any Sub-Fund whenever the determination of the Net Asset Value of such Sub-Fund or Class is suspended.

12. Anti-money Laundering and Counter Terrorist Financing Provisions

Pursuant to international rules and Luxembourg laws and regulations (comprising, but not limited to, the amended law of 12 November 2004 on the fight against money laundering and terrorist financing, the amended Grand-ducal Regulation of 1 February 2010, CSSF Regulation N° 12-02 of 14 December 2012 and CSSF Circulars 13/556, 17/650 and 18/684), professional obligations have been outlined to prevent the use of UCIs for money laundering and financing of terrorism purposes. As a result of such provisions, the registrar agent of a Luxembourg UCI must ascertain the identity of the subscriber in accordance with Luxembourg laws and regulations. Accordingly, the Fund, the AIFM or the Administrative Agent or any duly appointed agent will require subscribers to provide a certified copy of their passport, identity card or driving licence and for subscribers who are corporate or legal entities, an extract from the registrar of companies or articles of incorporation or other official documentation. In any case, the Fund, the AIFM or the Administrative Agent or any duly appointed agent will require, at any time, additional documentation relating to an application for Shares. In addition, the Fund, the AIFM or the Administrative Agent or any duly appointed agent will require any other information that the Fund, the AIFM or the Administrative Agent or any duly appointed agent may require in order to comply with their legal and regulatory obligations. Such information shall be collected for compliance reasons only and shall not be disclosed to unauthorised persons.

In case of delay, failure or refusal by an Investor to provide the documents required, the application for subscription (or, if applicable, for redemption) will not be accepted.

Neither the Fund, the AIFM, the Administrative Agent nor any duly appointed agent have any liability for delays or failure to process deals as a result of the Investor providing no or incomplete documentation.

Investors will be requested to provide additional or updated identification documents from time to time pursuant to ongoing client due diligence requirements under relevant laws and regulations.

The AIFM, the Administrative Agent or any duly appointed agent, under the ultimate responsibility of the Board of Directors, shall ensure that due diligence measures on the Fund's investments are applied on a risk-based approach in accordance with Luxembourg applicable laws and regulations.

In case of a subscription through an intermediary / financial intermediary acting on behalf of his customer, enhanced customer due diligence measures for this intermediary / financial intermediary will be applied in accordance with the 2004 Law and CSSF Regulation 12-02.

Additionally, pursuant to the above mentioned international and Luxembourg laws and regulations, the AIFM ensures that controls at the level of the delegates are performed over investments made or planned by the Fund consisting in an investment screening against sanctions and PEP lists. Those controls are performed taking into account a risk based approach relying on an investments risk classification and a country risk assessment (corruption, international sanctions, countries with strategic AML/CTF deficiencies identified by EU/FATF, etc...).

Redemptions

1. Redemption Procedure

Subject to the restrictions provided in this Prospectus and the relevant Appendix to the Prospectus, any Shareholder may apply for the redemption of some or all of his Shares or of a fixed amount. Shares will be redeemed at a price based on the Net Asset Value per Share determined as at the relevant NAV Date, as specified in the relevant Appendix to the Prospectus. If the value of a Shareholder's holding on the relevant NAV Date is less than the fixed amount which the Shareholder has applied to redeem, the Shareholder will be deemed to have requested the redemption of all of his Shares.

2. Prior Notice Requirements

Subject to equal treatment between Shareholders, the Board of Directors may at its sole discretion, accept any application for redemption received after the redemption deadline specified in the relevant Appendix to the Prospectus. If not accepted by the Board of Directors, such applications will be dealt with as of the next NAV Date.

3. Minimum Holding Amount

If, as a result of a redemption, the value of a Shareholder's holding would become less than the minimum holding amount specified for each Class in the relevant Appendix to the Prospectus, the Board of Directors may decide that the redeeming Shareholder shall be deemed to have requested the conversion of the rest of his Shares into Shares of the Class of the same Sub-Fund with a lower minimum holding amount (subject to the fulfilment of any requirements imposed on such Class) and, if the redeeming Shareholder was holding Shares of the Class with the lowest minimum holding amount, the Board of Directors may decide that the redeeming Shareholder shall be deemed to have requested the redemption of all of his Shares.

The Board of Directors may also at any time decide to compulsorily redeem or convert all Shares from any Shareholder whose holding is less than the minimum holding amount specified for each Class in the relevant Appendix to the Prospectus.

Before any such compulsory redemption or conversion, each Shareholder concerned will receive one month' prior notice to increase his holding above the applicable minimum holding amount based on the applicable Net Asset Value per Share.

4. Redemption Charge

In each Class of each Sub-Fund, a redemption charge may be charged or waived in whole or in part, as specified in the relevant Appendix to the Prospectus.

5. Redemption Price per Share

The redemption price per Share of each Class is the Net Asset Value per Share of such Class determined as at the relevant NAV Date reduced by any applicable redemption charge, if applicable, as specified in the relevant Appendix to the Prospectus.

6. Payment of Redemption Proceeds

Redemption proceeds, net of any applicable redemption charge, are paid in the reference currency of the relevant Sub-Fund or Class specified in the relevant Appendix to the Prospectus.

The details of the payment of redemption proceeds will be described in the relevant Appendix.

7. Redemptions in kind

Payment of the redemption proceeds will normally be made in cash. However, if market conditions or the interest of all the Shareholders of a Sub-Fund so warrant, the Board of Directors may propose to the redeeming Shareholder(s) to receive all or part of the redemption proceeds in kind (i.e. receive a portfolio of securities and/or other assets from the relevant Sub-Fund of equivalent value to the cash redemption proceeds). Any such proposal from the Board of Directors will be subject to the prior approval of the redeeming Shareholder(s).

Where the Shareholder agrees to accept redemption in kind he will, as far as possible, receive a representative selection of the Sub-Fund's holdings pro rata to the number of Shares redeemed and the Board of Directors will make sure that the remaining Shareholders do not suffer any loss therefrom. The value of the redemption in kind will be certified by a certificate drawn up by the auditors of the Fund in accordance with the requirements of Luxembourg law (if required). The specific costs for such redemption in kind, in particular the costs of the special audit report, will have to be borne by the Shareholder or by a third party, but will not be borne by the Fund unless the Board of Directors considers that the redemption in kind is in the interest of the Fund or made to protect the interests of the Fund.

8. Compulsory Redemption of Shares

If the Board of Directors becomes aware that a Shareholder is holding Shares in breach of any law or

regulation or otherwise in circumstances having, or which may have, adverse regulatory, tax or fiscal consequences for the Fund or a majority of its Shareholders, or otherwise be detrimental to the interests of the Fund, the Board of Directors may compulsorily redeem such Shares in accordance with the provisions of the Articles. Shareholders are required to notify the Fund and the Administrative Agent immediately if they cease to meet the Shareholder eligibility requirements specified in this Prospectus, if applicable, or hold Shares for the account or benefit of any person who does not or has ceased to meet such requirements, or hold Shares in breach of any law or regulation or otherwise in circumstances having, or which may either have adverse regulatory, tax or fiscal consequences for the Fund or be detrimental to the interests of the Fund.

If the Board of Directors becomes aware that a Shareholder has failed to provide any information or declaration required by the Board of Directors within ten days of being requested to do so, the Board of Directors may compulsorily redeem the relevant Shares in accordance with the provisions of the Articles.

9. Large Redemptions

If, on any NAV Date, redemption requests relate to more than 10% of the Net Asset Value of the Shares in issue in a specific Sub-Fund, the Board of Directors may decide that part or all of such requests for redemption will be deferred for such period as the Board of Directors considers to be in the best interest of the Sub-Fund. On the next NAV Date following such deferral period, these redemption requests will be met on the basis of the Net Asset Value determined as at that NAV Date and in priority to later requests.

In exceptional circumstances relating to a lack of liquidity of certain investments made by certain Sub-Funds and the related difficulties in determining the Net Asset Value of the Shares of certain Sub-Funds, the payment of redemption proceeds may be delayed. Although the Board of Directors will seek to select Investment Funds which offer the opportunity to have their shares or units redeemed within a reasonable time frame, there is no assurance that the liquidity of the investments of such Investment Funds will always be sufficient to meet redemption request as and when made. Any lack of liquidity may affect the liquidity of the Shares of the Fund and the value of its investments.

Additional measures in case of large redemption requests may be disclosed in the Sub-Fund appendices in the section "Gates".

10. Suspension of Redemptions

Redemption of Shares of any Sub-Fund or Class will be suspended whenever the determination of the Net Asset Value of such Sub-Fund or Class is suspended.

11. Revocability of Redemption Requests

In normal circumstances, applications for redemptions of Shares are irrevocable and may not be withdrawn by any Shareholder.

The Board of Directors may, however, at its sole discretion and taking due account of the principle of equal treatment between Shareholders and in the interest of the relevant Sub-Fund, decide to accept any withdrawal of an application for redemption.

In the event of the suspension of the determination of the Net Asset Value of the relevant Sub-Fund, the Shareholders of the relevant Sub-Fund who have made an application for redemption of their Shares, may give written notice to the Fund that they wish to withdraw their application.

12. Secondary Value Dealing

Please note that this procedure (Secondary Value Dealing) is not applicable as at the launch of a Sub-Fund and will not come into effect unless written notice has been given to the Shareholders of the respective Sub-Fund. As outlined in this section, the Board of Directors may decide to introduce temporarily the Secondary Value Dealing in extraordinary circumstances such as, for example, extraordinary market and economic conditions, significant redemption requests substantially in excess of the Sub-Fund's redemption restrictions, whether individually or aggregated, requiring the disposal of substantial parts of the Sub-Fund's assets, during periods when Target UCI's apply similar

redemption procedures or such other extraordinary situation, as may be reasonably determined by the Board of Directors, taking into account the interests of all Shareholders.

In relation to the Secondary Value Dealing procedure, redemption requests which are received prior to cut-off time on the Secondary Value Dealing redemption day, as determined by the Board of Directors and announced to the Shareholder prior to such day (the SVD Redemption Day), will, if accepted, be transacted at the Secondary Value Dealing Price (as defined below). The SVD Redemption Day following the decision of the Board of Directors to apply the Secondary Value Dealing shall be as soon as practicable.

For the avoidance of doubt, the regular procedure with regard to the issue and redemption of Shares set out in the relevant Sub-Fund Specifications (the Regular Dealing Procedure) shall not be available following the decision of the Board of Directors to apply the Secondary Value Dealing in respect of the relevant Sub-Fund.

Redemption proceeds shall normally be paid to the redeeming Shareholder as soon as practicable, but no later than 120 Calendar Days following the respective SVD Redemption Day (the SVD Redemption Payment Day), provided the relevant Sub-Fund has sufficient liquid assets available from proceeds of its assets as contemplated below. Should proceeds not be readily available, the Board of Directors shall keep the relevant Shareholders informed and pay redemption monies as soon as practicable when sufficient funds have been generated but not later than 270 after the relevant SVD Redemption Day.

Redemption requests shall be given for a number of Shares. Redemption requests expressed in nominal amounts will not be processed.

A non-binding indication (or estimated range, as applicable) as to the estimated Secondary Value Dealing Price shall be made available to investors typically 30 calendar days prior to the relevant SVD Redemption Day or as soon as practicable thereafter at the registered office of the Fund. Shareholders must be aware that such indication is an estimate only and the applicable Secondary Value Dealing Price may differ from such indication and will be determined taking into account the sales proceeds of the selected assets (see below section "Secondary Value Dealing Price").

The Board of Directors may adjust the above timelines and procedure in relation to any Sub-Fund.

Where applicable, outstanding redemption requests received in connection with the Regular Dealing Procedure will automatically be transferred to the Secondary Value Dealing. The redeeming Shareholders may withdraw their redemption request provided that notice of such withdrawal is given prior to the applicable SVD Redemption Day. In respect of each SVD Redemption Day, redemptions will not be limited and all redemption requests by the Shareholders, to the extent that these have been accepted, shall be transacted on the Secondary Value Dealing Price as set out below.

Secondary Value Dealing Price

The issue and redemption price for Shares during the Secondary Value Dealing (the Secondary Value Dealing Price) is based on the Sub-Fund's Net Asset Value as determined on the Valuation Day preceding the SVD Redemption Day, adjusted by a spread (the Spread), if any, reflecting the expected or actual discount relative to net asset values, of prices obtained through asset sales under the then prevailing market conditions, or, where applicable, redemption prices of Target UCIs.

The Spread (if any) shall be determined in good faith by the Board of Directors in consultation with the Co-Investment Manager and, where appropriate, third party service providers. Any potential hedging gains or losses relating to the redemptions received under the Secondary Value Dealing procedure shall be borne by the redeeming Shareholders.

Net Asset Value during Secondary Value Dealing

As long as the Secondary Value Dealing is applied, the Sub-Fund's Net Asset Value shall continue to be calculated in accordance with section "Calculation of Net Asset Value", provided that profits, losses and expenses that can be allocated to those assets that may be sold shall be excluded from the Sub-Fund's Net Asset Value. No subscriptions or redemptions will be transacted at the Sub-Fund's Net Asset Value during the Secondary Value Dealing.

Return to Regular Dealing Procedure

The Sub-Fund will return to its regular subscription and redemption procedure at the assessment of the Board of Directors that the extraordinary circumstances having warranted the application of the Secondary Value Dealing Procedure are no longer present. The Shareholders shall be notified about such change as soon as reasonably practicable. More specifically, it is expected that the Secondary Value Dealing will be replaced by the regular dealing procedure as soon as practicable taking into account the interests of all Shareholders.

B. Conversions

1. Possibility of Conversion

Unless otherwise disclosed for a Sub-Fund in the relevant Appendix to the Prospectus, Shareholders may ask to convert all or part of the Shares which they hold in a Class of a given Sub-Fund into Shares of another Class in the same Sub-Fund as well as ask to convert all or part of the Shares which they hold in a Class of a given Sub-Fund into Shares of the same Class of another Sub-Fund or into Shares of another Class of another Sub-Fund, unless otherwise specified in the relevant Appendix.

2. Irrevocability of Conversion Requests

Any request for conversion shall be irrevocable and may not be withdrawn by any Shareholder in any circumstances, except in the event of a suspension of the determination of the Net Asset Value of the relevant Sub-Fund. In the event of a suspension, the Fund will process the conversion requests on the first applicable NAV Date following the end of the period of suspension.

3. Conditions

Acceptance of any application for conversion is contingent upon the satisfaction of any conditions (including any minimum subscription and prior notice requirements) applicable to the Class into which the conversion is to be effected. If, as a result of a conversion, the value of a Shareholder's holding in the new Class would be less than the minimum holding amount specified for this Class in the relevant Appendix to the Prospectus, the Board of Directors may decide not to accept the conversion request. If, as a result of a conversion, the value of a Shareholder's holding in the original Class would become less than the minimum holding amount specified for this Class in the relevant Appendix to the Prospectus, the Board of Directors may decide that such Shareholder shall be deemed to have requested the conversion of all of his Shares.

4. Prior Notice Requirements

Unless specifically provided otherwise, the prior notice requirements for redemptions as specified for a given Sub-Fund in the relevant Appendix to the Prospectus shall be applicable to conversion requests.

5. Conversion Value

The number of full and fractional Shares issued upon conversion is determined on the basis of the Net Asset Value per Share of each Class concerned as at the common NAV Date on which the conversion request is effected. If there is no common NAV Date for any two Classes, the conversion is made on the basis of the Net Asset Value determined as at the next following NAV Date of the Class of Shares to be converted and as at the following NAV Date of the Class into which conversion is requested, or on such other days as the Board of Directors may reasonably determine.

VIII. NET ASSET VALUE

A. Calculation of Net Asset Value

The Net Asset Value of each Sub-Fund is determined as at the NAV Date specified for each Sub-Fund in the relevant Appendix to the Prospectus.

The Net Asset Value of each Sub-Fund will be determined and made available in its reference currency.

The Net Asset Value per Share of each Class of Shares for each Sub-Fund is determined by dividing the value of the total assets of the Sub-Fund properly allocated to such Class of Shares less the liabilities of the Sub-Fund properly allocated to such Class of Shares by the total number of Shares of such Class of Shares outstanding on any NAV Date.

In calculating the Net Asset Value, income and expenditure are treated as accruing from day-to-day.

Assets will be valued in accordance with the following principles:

- The value of any cash on hand or on deposit, bills and demand notes and accounts receivable (including any rebates on fees and expenses payable by any Investment Fund), prepaid expenses, cash dividends declared and interest accrued, and not yet received shall be deemed to be the full amount thereof, unless, however, the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as the Board of Directors may consider appropriate to reflect the true value thereof.
- The value of securities (including shares or units of closed-ended Investment Funds) which are quoted, traded or dealt in on any stock exchange shall be based on the latest available price or, if appropriate, on the average price on the stock exchange which is normally the principal market of such securities, and each security traded on any other regulated market shall be valued in a manner as similar as possible to that provided for quoted securities.
- For non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market as well as quoted or non-quoted securities on such other market for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Board of Directors, not representative of the fair market value, the value thereof shall be determined prudently and in good faith by the Board of Directors on the basis of foreseeable sale prices.
- Liquid assets and money market instruments may be valued at nominal value plus any accrued interest or on an amortised cost basis.
- Futures and options are valued by reference to the previous day's closing price on the relevant market; the market prices used are the futures exchanges settlement prices.
- Swaps are valued at fair value based on the last available closing price of the underlying security.
- Investments in open-ended Investment Funds will be taken at their latest official net asset values provided that the said net asset value is dated on NAV Day or earlier, or at their latest unofficial net asset values (i.e. which are not generally used for the purposes of subscription and redemption of shares of the underlying Investment Funds) as provided by the relevant administrators, the AIFM or Investment Managers if more recent than their official net asset values adjusted as the case may be, by the premium/discount paid upon acquisition.
- All other securities and assets will be valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors.

If events have occurred which may have resulted in a material change of the net asset value of such shares or units in other Investment Funds since the day on which the latest official net asset value was calculated, the value of such shares or units may be adjusted in order to reflect, in the reasonable opinion of the Board of Directors, such change of value.

For the purpose of determining the value of the Fund's assets, the Administrative Agent may rely upon such automatic pricing services as it shall determine or, if so instructed by the Board of Directors, it may use information received from various professional pricing sources (including fund administrators and brokers). In such circumstances, the Administrative Agent shall not, in the absence of manifest error on the part of the Administrative Agent, be responsible for any loss suffered by the Fund or any Shareholder by reason of any

error in the calculation of the Net Asset Value of the Fund or any Sub-Fund or any Class and the Net Asset Value per Share resulting from any inaccuracy in the information provided by such professional pricing sources.

Furthermore, in calculating the Net Asset Value of the Fund or any Sub-Fund or Classes and the Net Asset Value per Share, the Administrative Agent shall use reasonable endeavours to verify pricing information supplied by the Board of Directors, but investors should note that in certain circumstances it may not be possible or practicable for the Administrative Agent to verify such information. In such circumstances, the Administrative Agent shall not be liable for any loss suffered by the Fund or any Shareholder by reason of any error in the calculation of the Net Asset Value of the Fund or of any Sub-Fund or Classes and Net Asset Value per Share resulting from any inaccuracy in the information provided by the Board of Directors.

In circumstances where one or more pricing sources fails to provide valuations for an important part of the assets to the Administrative Agent preventing the latter to determine the subscription and redemption prices, the Administrative Agent shall inform the Board of Directors who may decide to suspend the Net Asset Value calculation.

The Board of Directors may, at its discretion, permit some other method of valuation to be used if it considers that such method of valuation better reflects the true value and is in accordance with good accounting practice.

The value of assets denominated in a currency other than the reference currency of a Sub-Fund shall be determined by taking into account the rate of exchange prevailing at the time of determination of the Net Asset Value.

Additional information in relation to the Fund's valuation procedure and of the pricing methodology for valuing the Fund's assets, including as the case may be the methods used in valuing hard-to-value assets and the appointment of external valuers in accordance with Article 17 of the AIFM Law, is available at the registered office of the AIFM.

The Board of Directors has delegated to the Administrative Agent the determination of the Net Asset Value and the Net Asset Value per Share.

The assets and liabilities of the Fund shall be allocated in such manner as to ensure that the proceeds received upon the issue of Shares of a specific Sub-Fund shall be attributed to that Sub-Fund. All of the assets and liabilities of a specific Sub-Fund as well as the income and expenses which are related thereto shall be attributed to that Sub-Fund. The rights of Shareholders and of creditors concerning a specific Sub-Fund or which have arisen in connection with the creation, operation or liquidation of a Sub-Fund are limited to the assets of that Sub-Fund. For the avoidance of doubt, the assets of a Sub-Fund are exclusively available to satisfy the rights of the Shareholders in relation to that Sub-Fund and the rights of creditors whose claims have arisen in connection with the creation, the operation or the liquidation of that Sub-Fund. Each Sub-Fund may be separately liquidated without such separate liquidation resulting in the liquidation of another Sub-Fund.

Nonetheless, assets or liabilities which cannot be attributed to any particular Sub-Fund (e.g. CSSF's annual fees) shall be allocated to all the Sub-Funds pro rata to their respective Net Asset Values. The proportion of the total net assets attributable to each Sub-Fund shall be reduced as applicable by the amount of any distribution to Shareholders and by any expenses paid.

The latest Net Asset Values and/or market prices of the Fund and/or the Shares, as the case may be, are available at the registered office of the AIFM.

B. Suspension of the Calculation of the Net Asset Value

The Fund may temporarily suspend the calculation of the Net Asset Value of one or more Sub-Funds and in

consequence the issue, redemption and conversion of Shares in any of the following events:

- during any period when any one of the stock exchanges or other principal markets on which a substantial portion of the assets of the Fund attributable to such Sub-Fund(s), from time to time, is quoted or dealt in is closed (otherwise than for ordinary holidays) or during which dealings therein are restricted or suspended provided that such restriction or suspension affects the valuation of the investments of the Fund attributable to such Sub-Fund(s) quoted thereon; or
- When investing in UCIs, there is no assurance that the liquidity of the investments of such UCIs will always be sufficient to meet redemption requests as, and when made. Any lack of liquidity may affect the liquidity of the shares of the Fund and the value of its investments. For such reasons the treatment of redemption requests may be postponed in exceptional circumstances including if a lack of liquidity may result in difficulties to determine the Net Asset Value of the shares of the Fund and consequently a suspension of issues and redemptions.
- during any period when, as a result of political, economic, military or monetary events or any circumstances outside the control, responsibility and power of the Board of Directors, or the existence of any state of affairs which constitutes an emergency in the opinion of the Board of Directors, disposal or valuation of the assets held by the Fund attributable to such Sub-Fund(s) is not reasonably practicable without this being seriously detrimental to the interests of Shareholders, or if in the opinion of the Board of Directors, the issue and, if applicable, redemption prices cannot fairly be calculated; or
- during any breakdown in the means of communication or computation normally employed in determining the price or value of any of the investments of the Fund attributable to such Sub-Fund(s) or the current prices or values on any stock exchanges or other markets in respect of the assets attributable to such Sub-Fund(s); or
- during any period when the Fund is unable to repatriate funds for the purpose of making payments on the redemption of Shares of such Sub-Fund(s) or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of Shares of the Fund cannot, in the opinion of the Board of Directors, be effected at normal rates of exchange; or
- during any period when the Net Asset Value of a Sub-Fund cannot be calculated because the net asset value of one or more Investment Funds in which the Sub-Fund has invested a substantial portion of its net assets is suspended; or
- from the time of publication of a notice convening an extraordinary general meeting of Shareholders for the purpose of winding up the Fund or any Sub-Fund(s), or merging the Fund or any Sub-Fund(s), or informing the Shareholders of the decision of the Board of Directors to terminate or merge any Sub-Fund(s); or
- when for any other reason, the prices of any investments owned by the Fund attributable to such Sub-Fund cannot be promptly or accurately ascertained; or
- during any period when in the opinion of the Board of Directors there exist circumstances outside the control of the Board of Directors where it would be impracticable or unfair towards the Shareholders to continue dealing in Shares of any Sub-Fund.

Notice of the beginning and of the end of any period of suspension shall be given by the Fund to all the Shareholders affected, i.e. having made an application for subscription or redemption of Shares for which the calculation of the Net Asset Value has been suspended.

Any application for subscription, redemption or conversion of Shares is irrevocable except in case of suspension of the calculation of the Net Asset Value of the relevant Sub-Fund, in which case Shareholders may give written notice that they wish to withdraw their application. If no such notice is received by the Fund, such application will be dealt with on the first NAV Date following the end of the period of suspension.

C. Swing Pricing Mechanism

Any Sub-Fund may suffer a reduction in value of the Net Asset Value per Share incurred by adjustments performed by the Investment Manager (or Co-Investment Managers) to adapt the portfolio following subscriptions and redemptions in the Sub-Fund.

In order to counter this and to protect Shareholders' interests, the Management Company may adopt a Swing Pricing Mechanism.

The Swing Pricing Mechanism means that in certain circumstances, the Management Company may make adjustments in the calculation of the Net Asset Values per Share. The Net Asset Value per Share may be adjusted upwards or downwards to reflect the impact of net inflows and net outflows respectively. The extent of the adjustments will be set by the Management Company to reflect the above-mentioned reduction in value due to factors such as costs, spread, entrance/redemption fee applicable in Target UCIs, market fluctuations not reflected in Target UCIs or liquidity premium when these are deemed to be significant. The maximum adjustment will not exceed 4% of the original Net Asset Value per Share.

The Swing Pricing Mechanism may be applied for all Sub-Funds and will be applied in an equitable manner to all shareholders of a Sub-Fund on the same Net Asset Value Date.

The Net Asset Value per Share of each class of each Type within the various Sub-Funds, and their issue, redemption and conversion prices may be obtained each full Business Day in Luxembourg from the Fund's registered office

IX. MANAGEMENT AND ADMINISTRATION OF THE FUND

A. AIFM AND MANAGEMENT COMPANY

The Board of Directors of the Fund has appointed UBP Asset Management (Europe) S.A. to act as its management company and alternative investment fund manager within the meaning of the AIFM Law (the "AIFM"). The AIFM was incorporated on 17 May, 2013 for an indefinite period, as a "société anonyme" ("limited company") governed by the laws of the Grand Duchy of Luxembourg and is authorised as a management company under Chapter 15 of the Law of 2010 and as alternative investment fund manager under Chapter 2 of the AIFM Law. The AIFM is wholly owned by Union Bancaire Privée, UBP SA Geneva. To that effect, the Fund entered into an Alternative Investment Fund Management Agreement (the "Management Agreement") concluded for an indefinite period. The Management Agreement may be terminated by either of the two parties subject to three months' prior notice. Under the Management Agreement, the AIFM receives an AIFM Fee (the AIFM Fee) as remuneration for its services as AIFM of the Fund. The AIFM Fee is composed of a Management Fee and a Service Fee as detailed in the section IX FEES AND EXPENSES.

Under the terms of the Management Agreement and in accordance with Annex I of the AIFM Law, the AIFM is in charge of the investment management functions of the Fund (i.e. portfolio and risk management).

Furthermore, the AIFM may, pursuant to the Management Agreement and in accordance with the Law, the AIFM Law and the Commission Delegated Regulation (EU) No 231/2013 of 19 December 2012 supplementing Directive 2011/61/EU of the European Parliament and of the Council with regard to exemptions, general operating conditions, depositaries, leverage, transparency and supervision ("AIFM Regulation"), delegate under its sole responsibility all or parts of the aforementioned duties to third parties duly authorised to perform such functions.

The AIFM has delegated the portfolio management to the Investment Manager. Information about conflicts of interests that may arise from these delegations is available at the registered office of the AIFM.

The AIFM holds appropriate additional own funds in accordance with the provisions of the AIFM Law and the AIFM Regulation to cover any potential professional liability resulting from its activities as AIFM.

The AIFM employs a risk management process and also has risk management procedures and processes which enable it to monitor the risks of the Fund.

These risk management procedures and processes include sustainability risks.

The AIFM maintains a liquidity management process to monitor the liquidity risk of the Sub-Funds, which includes, among other tools and methods of measurement, the use of stress tests under both normal and exceptional liquidity conditions.

The liquidity management systems and procedures allow the AIFM to apply various tools and arrangements necessary to monitor that the portfolio of each Sub-Fund is sufficiently liquid to normally respond appropriately to redemption requests. In normal circumstances, redemption requests will be processed as set out in section "Dealing in Shares".

Other arrangements may also be used in response to redemption requests, including the temporary suspension or deferral of such redemption requests in certain circumstances or use of similar arrangements which, if activated, will restrict the redemption rights investors benefit from in normal circumstances as set out below under the section "Dealing in Shares" and "Net Asset Value".

The AIFM has established policies and procedures and made arrangements to ensure the fair treatment of investors. Such arrangements include, but are not limited to, ensuring that no one or more investors are given preferential treatment over any rights and obligations in relation to their investment in the Fund. All rights and obligations to investors, including those related to subscription and redemption requests, are set out in this Prospectus or the Articles.

Information regarding the risk management process and liquidity management employed by the AIFM is available upon request from the registered office of the AIFM.

B. Investment Manager

The AIFM has appointed at its own costs the Investment Manager (as detailed in the relevant Appendix of the Sub-Funds) to act, under its supervision, control and responsibility as Investment Manager of the relevant Sub-Fund. The Investment Manager receives an appropriate portfolio management fee.

In accordance with the provisions of the AIFM Law and the AIFM Regulation, the Investment Manager may subcontract all or part of its duties to one or more third parties of its choice, at its own cost and whilst retaining responsibility.

The AIFM may also appoint several Investment Managers to co-manage the same Sub-Fund which will be known as Co-Investment Managers.

The Co-Investment Manager will be jointly responsible and liable for the investment management of the Sub-Fund.

C. Depositary

BNP Paribas S.A. Luxembourg Branch is acting as depositary of the Fund (the "Depositary") in accordance with a depositary agreement as amended from time to time (the "Depositary Agreement") and the relevant provisions of the Law of 2010, the Law of 2013 and the AIFM Regulation. The Depositary receives an

appropriate depositary fee paid by the AIFM out of the Service Fee.

Accordingly, the Depositary is responsible for the safe-keeping of the Fund's assets and shall ensure an effective and proper monitoring of the Fund's cash flows. In addition, the Depositary shall:

- a) ensure that the sale, issue, redemption and cancellation of Shares executed by or on behalf of the Fund are carried out in accordance with the law and the Articles of Incorporation of the Fund;

- d) ensure that the value of the Share is calculated in accordance with Luxembourg law, the Articles of Incorporation, this Prospectus and the procedures laid down in the Law of 2013;
- e) ensure that the income of the Fund is applied in accordance with its Articles of Incorporation.

In compliance with the provisions of the Depositary Agreement, the Law of 2013 and the AIFM Regulation, the Depositary may, under certain conditions, delegate part of its safekeeping obligations to third parties as appointed from time to time. The Depositary's liability shall not be affected by any such delegation, unless otherwise specified (see below), but only within the limits as permitted by the Law of 2013. A list of the sub-custodians is available upon request at the registered office of the Fund, if applicable.

In accordance with the Law of 2013, the Depositary is liable to the Fund or to the investors of the Fund, for the loss of a financial instrument held by the Depositary itself or a sub-custodian. In the case of such a loss of a financial instrument held in custody, the Depositary shall return a financial instrument of identical type or the corresponding amount to the AIFM acting on behalf of the Fund without undue delay. However, in accordance with the provisions of the Law of 2013, the Depositary shall not be liable if it can prove that the loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary. The Depositary shall also be liable to the Fund or to the investors of the Fund for all other losses suffered by them as a result of the Depositary's negligent or intentional failure to properly fulfil its obligations pursuant to the Law of 2013.

Investors are informed that, to the extent permitted by the Law of 2013 and the AIFM Regulation, the Depositary will opt for a transfer of liability to the entities to which safekeeping duties are delegated, where applicable.

Where the law of a third country requires that certain financial instruments be held in custody by a local entity and no local entity satisfies the delegation requirements as set out in the Law of 2013 and any other applicable rules and regulations, the Depositary may delegate its functions to such a local entity only to the extent required by the law of the third country and only for as long as there are no local entities that satisfy the delegation requirements. At this point in time, no such delegation is made. If such a delegation is made, the Prospectus will be updated accordingly

Investors are invited to consult the Depositary Agreement to have a better understanding and knowledge of the duties and liabilities (and any limitation thereof) of the Depositary.

The Depositary has no decision-making discretion nor any advice duty relating to the Fund's investments. The Depositary is a service provider to the Fund and is not responsible for the content of this Prospectus and therefore accepts no responsibility for the accuracy of any information contained in this Prospectus or the validity of the structure and investments of the Fund.

The expenses incurred by the Fund in relation to the launch of new Sub-Funds will be borne by and payable out of the assets of, those Sub-Funds and may be amortized over a period not exceeding five years.

G. TYPES OF SHARES

Within each Sub-Fund, shareholders may be offered various Types of shares ("Types"):

- Type A shares;
- Type I shares, reserved exclusively for institutional investors who may subscribe on their own behalf or on behalf of third parties, who must also be institutional investors. These shares will be subject to a lower Management Fee, and will not have any marketing or general distribution fees. I shares also benefit from a discounted subscription duty ("taxe d'abonnement");
- Type U share class is only available for:
 - investors who need to be pre-approved by the SICAV's Board of Directors and who purchase the Shares indirectly through a financial intermediary (such as a fund platform or wealth management firm) which provides either:
 - portfolio management services; or
 - independent investment advisory services; or
 - similar services based on agreements specifically providing for investment in retrocession-free share or unit classes;
 - investors in the United Kingdom, the Netherlands and such other countries as may be decided by the SICAV's Board of Directors from time to time who purchase the Shares directly;
 - other investors having received a specific approval given by the Fund's Board of Directors;
 U Shares do not entitle to any retrocessions. U Shares are retail distribution review (RDR) compliant.
- Type R Shares;
- Type Z shares, which are reserved for institutional investors who have signed a specific remuneration agreement with Union Bancaire Privée, UBP SA or with any other member of the UBP Group. Z shares benefit from a discounted subscription duty ("taxe d'abonnement").

The distinction between Type A and Type R Shares is the different fee levels that apply to these different Types of Shares, as set out in the Appendix of the relevant Sub-Fund.

Regarding access to Type I and Z shares, institutional investors shall be understood to be:

- Investors within the meaning of Article 174 (2) of the 2010 Law;
- Entities managing shares or large funds such as credit institutions, financial sector professionals, insurance and reinsurance companies, investment and pension funds, holding companies acting on their own behalf or on behalf of clients on the basis of discretionary mandates;
- National, regional or local authorities;
- The various Sub-Funds of the Fund in accordance with Article 181(8) of the 2010 Law.

For some new Sub-Funds, certain Types of shares with reduced fees may be offered to early investors. These Types of shares will then include the letter "E" in their denomination. Their availability will be at the discretion of the SICAV's Board of Directors and will not entitle to any retrocessions, unless otherwise exceptionally authorized by the SICAV's Board of Directors. However, and in any event, Type U (including Type UE) Shares will not entitle to any retrocessions.

Shares, which carry a performance fee, will include the letter "P" in their denomination.

Shares in currencies other than the Sub-Fund's base currency

In principle, these shares will be offered in all the authorised currencies as described below.

Classes in currencies other than the base currency of each sub-fund may be offered. These shares will bear all exchange-related costs concerning the subscription price and/or redemption price respectively received or paid in the Sub-Fund's base currency, costs relating to the calculation of the Net Asset Value and any related costs.

Depending on the Sub-Fund, the currency risk for these shares, denominated in other currency than the base currency may or may not be hedged.

The hedged shares will be covered largely by hedging transactions and will include the letter "H" in their denomination.

The objective of the hedging transactions is to cover the exchange-related risks between the base currency of a Sub-Fund and the share's currency.

XI. DISTRIBUTION POLICY

In each Class of Shares within each Sub-Fund, the Board of Directors may issue Capitalisation Shares and Distribution Shares, as determined in the relevant Appendix to the Prospectus.

Distribution Shares may pay a dividend to their holders whereas Capitalisation Shares capitalise their entire earnings.

As a general rule for distribution shares, the Fund distributes all net income from investments as annual dividends (D shares). The Board of Directors of the Fund may decide, for some Sub-Funds, to distribute a quarterly (Dq shares) or monthly dividend (Dm shares). Dividends may exceed the net income.

The dividends may be paid on income, capital gains and losses and the capital of the Sub-Fund provided that after distribution, the Fund's net assets exceed the minimum capital required by the 2010 Law.

Interim dividends may be distributed as the Board of Directors may determine in compliance with applicable law.

XII. TAXATION

Investors should consult their professional advisors on the possible tax or other consequences of buying, holding, transferring or selling the Sub-Fund's Shares under the laws of their countries of citizenship, residence or domicile.

A. The Fund

Under current law and practice the Fund is not liable to any Luxembourg income tax, nor are dividends paid by the Fund liable to any Luxembourg or European withholding tax, at the Fund's level. However, the Fund is normally liable in Luxembourg to a tax of 0.05% per annum of its net assets. Such tax rate is reduced to a rate of 0.01% in respect of the net assets attributable to such Classes of shares which are reserved for institutional investors within the meaning of, and as provided for in, article 174 (2) of the Luxembourg law of 17th December 2010 regarding collective investment undertakings as amended. Such tax is payable quarterly and calculated on the Net Asset Value of the relevant Class at the end of the relevant quarter. For the portion of the assets of the Fund invested in other UCIs which are established in Luxembourg, no such tax is payable. No stamp duty or other tax is payable in Luxembourg on the issue of shares in the Fund.

Under current law and practice, it is anticipated that no capital gains tax is payable on the realised or unrealised capital appreciation of the assets of the Fund.

Dividends and interest on securities issued in other countries may be subject to withholding taxes imposed by such countries.

B. Common Reporting Standard (CRS)

The Organisation for Economic Co-operation and Development ("OECD") has developed a common reporting standard ("CRS") to achieve a comprehensive and multilateral automatic exchange of information (AEOI) on a global basis. On 9 December 2014, Council Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (the "Euro-CRS Directive") was adopted in

order to implement the CRS among the Member States. The Euro-CRS Directive was implemented into Luxembourg law by the law of 18 December 2015 on automatic exchange of information regarding financial accounts in tax-related matters and implementing Council Directive 2014/107/EU of 9 December 2014 (the "CRS Law"). The CRS Law requires Luxembourg financial institutions to identify financial asset holders and establish if they are fiscally resident in an EU Member State other than Luxembourg or in a country specified in a Grand-Ducal Regulation. Accordingly, the Fund may require its Shareholders to provide information in relation to the identity and fiscal residence of financial account holders (including certain entities and their controlling persons) in order to ascertain their CRS status and report information regarding a Shareholder and his/her/its account to the Luxembourg tax authorities, if such account is deemed a CRS reportable account under the CRS Law. The Luxembourg tax authorities will therefore transfer this information to the competent foreign authorities on a yearly basis. Under the CRS Law, the first exchange of information will be applied by 30 September 2017 for information related to the calendar year 2016. Under the Euro-CRS Directive, the first AEOI must be applied by 30 September 2017 to the local tax authorities of the Member States for the data relating to the calendar year 2016.

By investing in the Fund, the Shareholder acknowledges that (i) the Fund is responsible for the treatment of the personal data provided for in the CRS Law; (ii) the personal data will inter alia be used for the purposes of the CRS Law; (iii) the personal data may be communicated to the Luxembourg tax authorities; (iv) responding to CRS-related questions is mandatory; and (v) the Shareholders have a right of access to and rectification of the data communicated to the Luxembourg tax authorities. In addition, Luxembourg signed the OECD's multilateral competent authority agreement ("Multilateral Agreement") to exchange information automatically under the CRS. The Multilateral Agreement aims to implement the CRS among non-Member States; it requires agreements on a country-by-country basis. The investors undertake to inform the Fund (or any third party appointed by it) within thirty (30) days and provide an updated self-certification form where any change in circumstances occurs, which causes any of the information contained in the self-certification form to be incorrect.

Investors should consult their professional advisers on the individual impact of the CRS.

C. Data protection

Investors are informed that the Fund, as data controller (the "Data Controller"), collects, stores and processes by electronic or other means personal data (i.e. any information relating to an identified or identifiable natural person, hereafter, (the "Personal Data")) supplied by the Investors at the time of their subscription and at any other time during the contractual relationship, in accordance with data protection law applicable in Luxembourg (including, but not limited to, the amended law of 2 August 2002 on the protection of persons with regard to the processing of personal data (the "2002 Law") and, when applicable, the Regulation (EU) 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (the "General Data Protection Regulation", together with the Law of 2002, the "Data Protection Law")) for the purpose of fulfilling the services required by the Investors and/or for complying with legal and regulatory obligations as described below.

The Entities may act as data processors on behalf of the Data Controller or, in certain circumstances, as data controller, in particular for compliance with their legal obligations in accordance with applicable laws and regulations (such as anti-money laundering identification) and/or order of competent jurisdiction. The Investors acknowledge that the Entities may be located outside of the European Economic Area ("EEA") in countries which do not ensure an adequate level of protection according to the European Commission and where data protection and/or professional secrecy laws might not exist or be of a lower standard than in the EEA.

The Data Controller undertakes not to transfer the Personal Data to any third parties other than the Entities, except as disclosed in the documentation provided to the Investors or if required or permitted by applicable laws and regulations or court order and in compliance with Data Protection Laws.

The Fund undertakes not to transfer the Personal Data to any third parties other than the Entities acting as data processors, except as disclosed herein or if required by applicable laws regulations or court order. This may include disclosure to third parties such as governmental or regulatory bodies including tax authorities, auditors or accountants as well as legal and financial advisers who may process the Personal Data for carrying out their services and complying with legal and regulatory obligations as described above. This transfer and disclosure of Personal Data may take place to countries which do not have equivalent data protection laws to those of the

EEA, or that are not subject to an adequacy decision of the European Commission, including the Data Protection Law and the Luxembourg law of 5 April 1993 on the financial sector which provides for a professional secrecy obligation (including but not limited to, Switzerland). The Data Controller may only transfer the Personal Data for the purposes of providing the Investment Services to the Data Subjects or for compliance with applicable laws and regulations, as described herein.

Where the processing of Personal Data or transfer of Personal Data outside of the EEA takes place on the basis of the consent of the Data Subjects, the Data Subjects are entitled to withdraw their consent at any time without prejudice to the lawfulness of the processing and/or data transfers carried out before the withdrawal of such consent and the Data Controller will accordingly cease such processing or transfers. However, the Data Subjects acknowledge that, notwithstanding any withdrawal of their consent, the Data Controller may still continue to process and/or transfer Personal Data outside the EEA if permitted by Data Protection Law or if required by applicable laws and regulations. Any change to, or withdrawal of, the Data Subjects' consent must be communicated in writing to the Fund to the attention of UBP Asset Management (Europe) S.A., 287-289, route d'Arlon, L-1150 Luxembourg, Grand Duchy of Luxembourg.

Each Investor further acknowledges and accepts that the Fund will report any relevant information in relation to investments in the Fund to the Luxembourg tax authorities which will exchange this information on an automatic basis with the competent authorities in the United States or other permitted jurisdictions as agreed in the FATCA Law, the CRS Law or similar laws and regulations in Luxembourg or at EU level.

Failure to provide relevant Personal Data requested in the course of their relationship with the Fund may need to be reported by the Fund to the relevant Luxembourg authorities to the extent required by applicable law and may prevent the Fund from maintaining the relationship with the Investor.

Insofar as the Personal Data provided by Investors include Personal Data of their representatives and/or authorised signatories and/or shareholders and/or ultimate beneficial owners, the Investors confirm having informed them of the present section and of their rights as described below, and having secured their consent to the processing of their Personal Data as above described and, in particular, to the disclosure of their Personal Data to, and the processing of their Personal Data by, the various parties referred to above including in countries outside the European Union which may not offer a similar level of protection as that under applicable Data Protection Law in Luxembourg (including but not limited to Singapore and Hong-Kong). The Data Controller may assume, where applicable, that Data Subjects have, where necessary, given such consent and have been informed of the processing and transfer of their Personal Data and of their rights as described under this section.

Personal Data is held until the Investor ceases to hold shares in the Fund, plus a period of 10 years thereafter where necessary to comply with applicable laws and regulations or to establish, exercise or defend actual or

potential legal claims, subject to the applicable statutes of limitation, unless a longer period is required by applicable laws and regulations. In any case, Personal Data will not be held for longer than necessary with regard to the performance of the Investment Services, subject always to applicable legal minimum retention periods.

Each Data Subject may request (i) access to, rectification, or deletion of, any incorrect Personal Data concerning him, (ii) a restriction of processing of Personal Data concerning him and, (iii) to receive Personal Data concerning him in a structured, commonly used and machine readable format or to transmit those Personal Data to another controller in accordance with Data Protection Law and (iv) to obtain a copy of or access to the appropriate or suitable safeguards which have been implemented for transferring the Personal Data outside of the EEA, in the manner and subject to the limitations prescribed in accordance with the Data Protection Law. In particular, Data Subjects may at any time object, on request and free of charge, to the processing of its Personal Data for direct marketing purposes or for other legitimate interests. Each Investor should address such requests to the Fund to the attention of UBP Asset Management (Europe) S.A., 287-289, route d'Arlon, L-1150 Luxembourg, Grand Duchy of Luxembourg to the attention of the conducting officer in charge of compliance. For any additional information related to the processing of their Personal Data, Data Subjects can contact the Data Protection Officer of the Data Controller via post mail at UBP Asset Management (Europe) S.A., 287-289, route d'Arlon, L-1150 Luxembourg, Grand Duchy of Luxembourg or via email at LuxUBPAM@ubp.ch.

D. FATCA

FATCA, a portion of the 2010 Hiring Incentives to Restore Employment Act, became law in the United States in 2010. It requires financial institutions outside the US ("foreign financial institutions" or "FFIs") to pass information about "Financial Accounts" held by "Specified US Persons", directly or indirectly, to the US tax authorities, the Internal Revenue Service ("IRS") on an annual basis. A 30% withholding tax is imposed on certain US source income of any FFI that fails to comply with this requirement. On 28 March 2014, the Grand-Duchy of Luxembourg entered into a Model 1 Intergovernmental Agreement ("IGA") with the United States of America and a memorandum of understanding in respect thereof. The Fund would hence have to comply with such Luxembourg IGA as implemented into Luxembourg law by the Law of 24 July 2015 relating to FATCA (the "FATCA Law") in order to comply with the provisions of FATCA rather than complying with the US Treasury Regulations implementing FATCA. Under the IGA, the Fund may be required to collect information aiming to identify its direct and indirect shareholders that are Specified US Persons for FATCA purposes ("FATCA reportable accounts"). Any such information on reportable accounts provided to the Fund will be shared with the Luxembourg tax authorities which will exchange that information on an automatic basis with the Government of the United States of America pursuant to Article 28 of the convention between the Government of the United States of America and the Government of the Grand-Duchy of Luxembourg for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes in Income and Capital, entered into in Luxembourg on 3 April 1996. The Fund intends to comply with the provisions of the FATCA Law and the Luxembourg IGA to be deemed compliant with FATCA and will thus not be subject to the 30% withholding tax with respect to its share of any such payments attributable to actual and deemed U.S. investments of the Fund. In accordance with the Luxembourg IGA, the Fund has appointed the AIFM as Sponsoring Entity and will operate under the latter's GIIN until further notice. The Fund therefore qualifies as Non-Reporting Luxembourg Financial Institution and shall be treated as deemed-compliant FFI for purposes of section 1471 of the U.S. Internal Revenue Code.

To ensure the Fund's compliance with FATCA, the FATCA Law and the Luxembourg IGA in accordance with the foregoing, the AIFM, in its capacity as the Fund's AIFM, may:

- a. request information or documentation, including W-8 tax forms, a Global Intermediary Identification Number, if applicable, or any other valid evidence of a shareholder's FATCA registration with the IRS or a corresponding exemption, in order to ascertain such shareholder's FATCA status;
- b. report information concerning a Shareholder and his account holding in the Fund to the Luxembourg tax authorities if such account is deemed a FATCA reportable account under the FATCA Law and the Luxembourg IGA;
- c. report information to the Luxembourg tax authorities (Administration des Contributions Directes) concerning payments to Shareholders with FATCA status of a non-participating foreign financial institution;
- d. deduct applicable US withholding taxes from certain payments made to a Shareholder by or on behalf of the Fund in accordance with FATCA, the FATCA Law and the Luxembourg IGA; and
- e. divulge any such personal information to any immediate payer of certain U.S. source income as may be required for withholding and reporting to occur with respect to the payment of such income.

By investing in the Fund, the Shareholder acknowledges that (i) the Fund is responsible for the treatment of the personal data provided for in the FATCA Law; (ii) the personal data obtained will inter alia be used for the purposes of the FATCA Law; (iii) the personal data may be communicated to the Luxembourg tax authorities; (iv) responding to FATCA-related questions is mandatory; and (v) the Shareholders have a right of access to and rectification of the data communicated to the Luxembourg tax authorities.

Shareholders should consult their professional advisers on the individual impact of FATCA.

XIII. AMENDMENT PROCEDURES

The Articles of Incorporation may be amended from time to time in accordance with the quorum and majority requirements laid down by Luxembourg law and the Articles of Incorporation.

The Prospectus may be amended from time to time by the Board of Directors of the Fund with the prior approval of the CSSF in accordance with Luxembourg law and regulations.

In the event of a change in the investment policy or investment strategy of the Sub-Funds, investors in the Sub-Fund(s) concerned will be notified accordingly by way of a notice and, should the change be considered by the CSSF as material, they will have the right to redeem their shares free of charge within the period of time specified in the notice.

Meetings of Shareholders of any given Sub-Fund or Class shall decide upon matters relating to that Sub-Fund or Class only.

C. Fair and preferential treatment

Shareholders are being given a fair treatment by ensuring that they are treated in accordance with the applicable requirements of the AIFM Law (and notably in adequately implementing the inducement and conflict of interest policies).

Notwithstanding the foregoing paragraph, it cannot be excluded that a Shareholder be given a Preferential Treatment in the meaning of, and to the widest extent allowed by, the Articles. Whenever a Shareholder obtains preferential treatment or the right to obtain preferential treatment, a description of that preferential treatment, the type of Shareholders who obtained such preferential treatment and, where relevant, their legal or economic links with the Fund or the AIFM will be made available at the registered office of the AIFM within the limits required by the AIFM Law.

E. Conflicts of Interest

According to the AIFM Rules, the AIFM must take all reasonable steps to identify conflicts of interest that arise in the course of managing the Fund between the AIFM (including its managers, employees or any person directly or indirectly linked to the AIFM by control) and the Fund or its Investors, the Fund or its Investors and another client of the AIFM (including another alternative investment fund, an undertaking for collective investment in transferable securities or their investors), and two clients of the AIFM.

The AIFM must maintain and operate effective organisational and administrative arrangements with a view to taking all reasonable steps designed to identify, prevent, manage and monitor conflicts of interest in order to prevent them from adversely affecting the interests of the Fund and its Investors.

The AIFM must segregate, within its own operating environment, tasks and responsibilities which may be regarded as incompatible with each other or which may potentially generate systematic conflicts of interest. The AIFM must assess whether its operating conditions may involve any other material conflicts of interest and disclose them to the Investors.

Where organisational arrangements made by the AIFM to identify, prevent, manage and monitor conflicts of interest are not sufficient to ensure, with reasonable confidence, that risks of damage to Investors' interests will be prevented, the AIFM must clearly disclose the general nature or sources of conflicts of interest to the Investors before undertaking business on their behalf, and develop appropriate policies and procedures.

Investors are informed that, by the sole fact of soliciting an investment or, a fortiori, investing in the Fund, they acknowledge and consent that the information to be disclosed as per the above is provided at the registered office of the AIFM and that this information will not be addressed personally to them.

F. Historical performances

A summary description of the AIFM's voting strategies and details of the actions taken on the basis of these strategies will be made available to the investors upon their request at the registered office of the AIFM.

L. Liquidation of the Fund – Liquidation or Amalgamation of Sub-Funds

1. Liquidation of the Fund

The Fund has been established for an unlimited period. However, the Fund may, at any time, be liquidated by a resolution of the general meeting of Shareholders taken in the same conditions that are required by law to amend the Articles. The Board of Directors may propose at any time to the Shareholders to liquidate the Fund.

Any decision to liquidate the Fund will be published in the Memorial.

As soon as the decision to liquidate the Fund is taken, the issue, redemption or conversion of Shares in all Sub-Funds is prohibited and shall be deemed void.

The liquidation of the Fund will be conducted by one or more liquidators, who may be individuals or legal entities and who will be appointed by a meeting of Shareholders. This meeting will determine their powers and compensation.

Any liquidation of the Fund shall be carried out in accordance with the provisions of the Law. Such Law specifies the steps to be taken to enable Shareholders to participate in the distribution of the liquidation proceeds and provides upon finalisation of the liquidation that the assets which could not be distributed to the relevant Shareholders be deposited in escrow with the Caisse de Consignation to be held for the benefit of the relevant Shareholders. Amounts not claimed from escrow within the relevant prescription period will be liable to be forfeited in accordance with the provisions of Luxembourg law.

2. Liquidation or Amalgamation of Sub-Funds

The Sub-Funds may be established for a limited or unlimited period, as specified in the relevant Appendix to the Prospectus.

If the net assets of any Sub-Fund or Class fall below or do not reach an amount determined by the Board of Directors to be the minimum level for such Sub-Fund or such Class to be operated in an economically efficient manner or if the interests of Shareholders or a change in the economic or political situation relating to the Sub-Fund or Class concerned justify it, or if it is in the interest of the Shareholders or for rationalisation purposes, the Board of Directors has the discretionary power to liquidate such Sub-Fund or Class by compulsory redemption of Shares of such Sub-Fund or Class at the Net Asset Value per Share determined as at the NAV Date at which such a decision shall become effective. The decision to liquidate will be notified by the Fund to the relevant Shareholders prior to the effective date of the liquidation and the notice will indicate the reasons for, and the procedures of, the liquidation operations. Unless the Board of Directors decides otherwise in the interest of, or in order to ensure equal treatment of, the Shareholders, the Shareholders of the Sub-Fund or Class concerned may continue to request redemption or conversion of their Shares free of redemption or conversion charges (but taking into account actual realisation prices of investments and realisation expenses).

Notwithstanding the powers conferred to the Board of Directors by the preceding paragraph, a general meeting of Shareholders of any Sub-Fund or Class may also, upon proposal from the Board of Directors and with its approval, redeem all the Shares of such Sub-Fund or Class and refund to the Shareholders the Net Asset Value of their Shares (taking into account actual realisation prices of investments and realisation expenses) determined as at the NAV Date at which such decision shall take effect. There shall be no quorum requirements for such a general meeting of Shareholders at which resolutions shall be adopted by simple majority of the votes cast.

Assets which could not be distributed to the relevant Shareholders upon the conclusion of the liquidation of a Sub-Fund or Class will be deposited with the Caisse de Consignation to be held for the benefit of the relevant Shareholders. Amounts not claimed within the relevant prescription period will be forfeited in accordance with Luxembourg law.

Upon the circumstances provided for under the second paragraph of this section, the Board of Directors may decide to allocate the assets of any Sub-Fund to those of another existing Sub-Fund within the Fund or to another UCI, or to another sub-fund within such other UCI (the "new Sub-Fund") and to re-designate the Shares of the Sub-Fund concerned as Shares of the new Sub-Fund (following

a split or consolidation, if necessary and the payment of the amount corresponding to any fractional entitlement to Shareholders). Such decision will be notified to the Shareholders concerned (and, in addition, the notification will contain information in relation to the new Sub-Fund), one month before the date on which the amalgamation becomes effective in order to enable Shareholders to request redemption or conversion of their Shares, free of charge, during such period. After such period, the decision commits the entirety of Shareholders who have not used this possibility, provided however that, if the amalgamation is to be implemented with a Luxembourg undertaking for collective investment of the contractual type ("fonds commun de placement") or a foreign based undertaking for collective investment, such decision shall be binding only on the Shareholders who are in favour of such amalgamation.

Notwithstanding the powers conferred to the Board of Directors by the preceding paragraph, a contribution of the assets and liabilities attributable to any Sub-Fund to another Sub-Fund of the Fund may also be decided upon by a general meeting of the Shareholders, upon proposal from the Board of Directors and with its approval, of the contributing Sub-Fund for which there shall be no quorum requirements and which shall decide upon such an amalgamation by resolution adopted by simple majority of the votes cast. Such decision shall be binding only on the Shareholders who are in favour of such amalgamation. The other Shareholders will be compulsorily redeemed.

A contribution of the assets and liabilities attributable to any Sub-Fund to another UCI or to a sub-fund within such other UCI may also be decided by a general meeting of Shareholders and shall require a resolution of the Shareholders of the contributing Sub-Fund where no quorum is required and adopted by a simple majority of the Shares present or represented at such meeting, except when such amalgamation is to be implemented with a Luxembourg UCI of the contractual type ("fonds commun de placement") or a foreign based UCI, in which case resolutions shall be binding only on the Shareholders of the contributing Sub-Fund who have voted in favour of such amalgamation.

Appendix I

UBP PG - Active Income

Information contained in this Appendix should be read in conjunction with the full text of the Prospectus.

Investment objective

UBP PG - Active Income (the “Sub-Fund”)’s investment objective is to offer investors access to diversified income sources across public fixed income markets and private debt investments.

Investment policy

This Sub-Fund, denominated in USD, will be exposed primarily to fixed income markets across both public and private markets by investing primarily in investment funds (“Target UCIs”) managed by Union Bancaire Privée, UBP SA or Partners Group AG (the “Co-Investment Managers”).

On an ancillary basis, the Sub-Fund may also invest directly in instruments included in the portfolios of the money market & short-term bond Target UCIs described below.

The investment policy, including but not limited to the selection of these Target UCIs as well as their allocation, will be decided jointly by the two Co-Investment Managers.

The Target UCIs’ strategy may include liquid and illiquid strategies such as (i) money market & short term bond funds, (ii) investment grade and/or high yield global credit funds as well as less liquid strategies such as (iii) private debt funds.

Target UCI will respect the specific rules applicable to Luxembourg undertakings for collective investment (“UCIs”) pursuing alternative investment strategies, namely circulars IML 91/75 and CSSF 02/80.

The Co-Investment Managers will rebalance the allocation between Target UCIs in consideration of actual and anticipated subscription and redemption notices of the Sub-Fund in an effort to optimise the Sub-Fund’s liquidity.

The indicative target allocation for liquid funds will typically range between 40% to 60% of the Sub-Fund’s net assets.

The indicative target allocation for less liquid funds will typically range between 40% to 60% of the Sub-Fund’s net assets.

When investing in either liquid or illiquid strategies, the Co-Investment Managers may decide to select only one Target UCI per strategy.

The above indicative target allocation are not investment restrictions and are only indicative allocations over the long term. In case of important subscriptions and redemptions in the Sub-Fund, the indicative target allocation mentioned above will not be achieved.

Investors should be aware that

- The Sub-Fund will invest a substantial part of its assets in one or more private debt funds with lower liquidity terms than public fixed income funds;
- Private debt funds may experience lower liquidity terms than their official fund NAV frequency in consideration of the illiquidity of the underlying assets as well as corresponding gating restrictions. Any imposition of gating restrictions in Target UCIs will reduce the liquidity of the Sub-Fund;
- Although the Co-Investment Managers will adjust the allocation between liquid and less liquid funds, there can be no assurance that the above target allocation will be respected at all times especially following important subscription or redemption notices of the Sub-Fund shareholders.
In case of important subscription in the Sub-Fund, the short/medium term allocation to liquid strategies may increase naturally until the investments in private debts can be made (“ramp-up

period”).

In case of important redemption in the Sub-Fund, the allocation to less liquid strategies may increase (eventually until 100%) and the Sub-Fund’s NAV could be suspended or limited as described in section “VI Dealing in Shares - B Redemptions - 9 Large Redemptions” in the main part of the Prospectus as well as paragraph “Gates” below.

Investors should carefully read the Fund and Sub-Fund’s risk warnings before investing in this Sub-Fund.

Types of Target UCI

Money market & short-term bond funds

These target funds will typically invest in:

- a. Any kind of bonds whose residual maturity does not exceed 2 years and which are rated at least “P-2” by Moody’s Investor Services or equivalent, or if not rated, are of comparable quality as determined by the investment manager internal rating process;
- b. Approved money market instruments as set out in Directive 2009/65/EC;
- c. Deposits with credit institutions;
- d. Units/Shares of collective investment undertakings which comply with the definition of a “Short-Term Money Market Fund” or a “Money Market Fund” as per the ESMA Guidelines on a common definition of European Money Market Funds (CESR/10-49).

Investment grade and high yield global credit funds

These Target UCIs invest typically in fixed income derivatives such as, but not limited to, CDS indices, CDS on single names, interest rate swaps and swaptions, interest rate futures and options. These non-funded investments aim to expose the Sub-Fund in investment grade, high yield and emerging markets.

Investments in physical instruments, i.e. funded assets, will be done in liquid segments of the global fixed income markets, primarily in sovereigns and/or corporate fixed income securities rated investment grade by Moody’s, S&P or Fitch.

Private debt funds

The Target UCI's will typically invest in senior and subordinated private loans and public high yield bonds. The allocation of the Target UCI's assets aims to provide a broad diversification and follow the principle of risk spreading.

Investments will mainly be made in corporate, real estate and infrastructure loans with either a senior or subordinated position in the capital structure. The Target UCI's may invest in new transactions (primary issuance) as well as the secondary loan market. Loans in the secondary market may have lower yields than loans acquired in the primary issuance market, however they may be purchased at a greater discount than available in the primary issuance market. Acquiring loans in the secondary market will provide opportunities to take advantage of supply and demand inefficiencies if sellers need liquidity and seek to sell their positions.

When investing in Target UCIs, there is no assurance that the liquidity of the investments of such UCIs will always be sufficient to meet redemption requests as, and when made. Any lack of liquidity may affect the liquidity of the shares of the Fund and the value of its investments. For such reasons the treatment of redemption requests may be postponed in exceptional circumstances including if a lack of liquidity may result in difficulties to determine the Net Asset Value of the shares of the Fund and consequently a suspension of issues and redemptions.

Investment restrictions

The investment operations with respect to the assets of the Sub-Fund will comply with the investment restrictions described in section IV. "Investment Restrictions" in the main part of the Prospectus.

When investing more than twenty per cent (20%) of its net assets in units or shares issued by the same Target UCI, the Target UCI must respect the following risk diversification requirement:

- Each Sub-Fund may not invest more than twenty per cent (20%) of its net assets in securities issued by one and the same issuer.

For a period of up to six months after the Sub-Fund launch date, while ensuring the observance of the principle of risk-spreading, the Co-Investment Managers may deviate from the Sub-Fund's investment guidelines including:

- the investment restrictions described in section IV. "Investment Restrictions" in the main part of the Prospectus;
- the investment guidelines and constraints (if any) described in the "Investment Policy";
- the Investment restrictions (if any) described in this paragraph Investment Restrictions.

Gates

Redemptions may be limited so that no more than:

- 10% of the NAV of the Sub-Fund may be redeemed on any NAV Date;
- 25% of the NAV of the Sub-Fund may be redeemed during any given rolling 12-week period;
- 50% of the NAV of the Sub-Fund may be redeemed during any given rolling 52-week period.

The percentage of redemption over the 12-week and 52-week period, respectively, is calculated based on following principles:

For each NAV Date, the net redemption amount equals (a) redemptions minus (b) subscriptions for such NAV Date. If the result is negative for any particular NAV Date (i.e. subscriptions exceed redemptions on that particular NAV Date), the net redemption amount is set to zero for that NAV Date so that only NAV Dates where redemptions are greater than subscriptions are taken into account for purposes of the gating restriction.

The sum of the net redemption amounts over the last 12 weeks and 52 weeks, respectively, is divided by the latest available NAV of the Fund (i.e. Net Asset Value as of immediately preceding NAV Date including subscriptions and redemptions transacted on such NAV Date).

The Board of Directors may at its discretion fully or partially waive the application of the gates.

Where a redemption request is, fully or partially, deferred in accordance with the redemption restrictions of the Sub-Fund, the Directors may grant all affected Shareholders the right to withdraw the deferred part of the original redemption request.

Redemption requests in excess of the limits set out above will be reimbursed to investors in the order that redemptions were received (deferred orders will be prioritized).

Redemption requests in excess of the limits set out above for a given NAV Date will be reduced pro-rata and any amount in excess of the respective limit deferred to the immediately succeeding NAV Date, always subject to the applicable redemption limits.

Redemptions under Extraordinary Circumstances

Under normal circumstances, the Sub-Fund's regular redemption procedure applies. This Secondary Value Dealing procedure is applicable as from date of this Prospectus until the Board of Directors has given written notice to the Shareholder that the Secondary Value Dealing shall apply in order to deal with extraordinary circumstances as further described in section "Secondary Value Dealing".

Such measures shall be of a temporary nature only and are expected to be lifted once these circumstances have normalised.

The Shareholders will be informed as soon as practicable, should the Board of Directors decide to make use of any of these measures. If a Shareholder has submitted a request for redemption of Shares prior to such

announcement, it may withdraw its request. If the redemption request is not withdrawn, the redemption will be transacted in accordance with the terms of the Secondary Value Dealing.

Borrowings

The Co-Investment Managers may borrow monies, in order to face large redemptions, for the account of the Sub-Fund provided that it will not result in an aggregate outstanding amount of borrowing in excess of 10% of the Sub-Fund's net assets, save that in the case of extraordinary emergency situations, such as in the case of a merger, amalgamation or the like, this 10% limit may be temporarily exceeded.

Use of financial derivative instruments

It is permitted to use currency forwards for hedging or efficient portfolio management.

Leverage

Leverage means any method by which the Sub-Fund's exposure may be increased, whether through the borrowing of cash or of any other assets, via derivatives or by any other means.

Maximum expected leverage using the Gross Method: 210%.

Maximum expected leverage using the Commitment Method: 210%.

Further information regarding notably the circumstances in which the Sub-Fund is entitled to use leverage, the types and sources of leverage, any right to reuse collateral or any guarantee granted under the leveraging arrangement as well as any change to the above-mentioned maximum level of leverage will be disclosed at the registered office of the AIFM. The frequency or timing of such disclosure is also available at the registered office of the AIFM.

Specific risks concerning private debt markets

The Sub-Fund will invest in private debt funds. In addition to the risk warnings described in section III "Risk Warning" in the main part of the Prospectus, please find some specific risks attached to the Target UCI's investment in private debt and private market investments.

- Private market investments typically display uncertainties which do not exist to the same extent in other investments (e.g. listed securities). Private market investments may be in entities which have only existed for a short time, which have little business experience, whose products do not have an established market, or which are faced with restructuring etc. Any forecast of future growth in value may therefore often be encumbered with greater uncertainties than is the case with many other investments.
Further, private market investments are often illiquid long-term investments that do not display the liquidity or transparency characteristics often found in other investments (e.g. listed securities). Certain investments are valued on the basis of estimated prices and therefore subject to potentially greater pricing uncertainties than listed securities. In addition, private debt funds may not be able to sell their assets when it desires to do so or to realize what it perceives to be their fair value upon a sale. It is not generally expected that their assets will be sold for a number of years after such investments are made.
- Certain debt securities in which any Target UCI may invest typically will be subordinated to substantial amounts of senior indebtedness. The ability of any Target UCI to influence the issuer of such subordinated debt, especially during periods of financial distress or following insolvency, is likely to be substantially less than that of senior creditors. Accordingly, the Target UCI may not be able to take the steps necessary to protect its investments in a timely manner or at all. In addition, certain debt securities in which the Target UCI may invest may not be protected by financial covenants, may have limited liquidity and/or may not be rated by a credit rating agency. Debt securities are also subject to other creditor risks, including (i) the possible invalidation of an investment transaction as a "fraudulent conveyance" under relevant creditors' rights laws, (ii) so-called lender liability claims by the issuer of the obligations and (iii) environmental liabilities that may

arise with respect to collateral securing the obligations.

The investments may be subject to early redemption features, refinancing options, pre-payment options or similar provisions which, in each case, could result in the issuer repaying the principal on an obligation held by the Target UCI earlier than expected, resulting in a lower return to the Target UCI than projected. In many cases, the Target UCI's management of its investments and its remedies with respect thereto, including the ability to foreclose on any collateral securing such Investments, will be subject to the rights of the senior lenders and contractual inter-creditor provisions. Accordingly, there can be no assurance that the Target UCI's as well as the Fund's return objectives will be realized. An investment in these markets should be thought of as a long-term investment.

- In connection with the disposition of the Target UCI's assets, the Target UCI may be required to make representations and warranties regarding the business and its financial affairs. The Target UCI may also be required to indemnify the purchasers of the Target UCI's assets to the extent that any such representations and warranties are inaccurate or misleading. These arrangements may result in liabilities for the Target UCI. The disposition of assets may also give rise to certain tax liabilities.
- Private debt instruments held in Target UCIs may not be priced based on market prices or on market observable inputs and may be valued at fair value according to the valuation policy of the Target UCI.
- Pricing sources for private debt instruments held in Target UCIs are mainly third party pricing vendor, broker prices and/or fair value prices calculated by the investment manager or any of its affiliates when such other pricing is not available.
- The valuation frequency of some private debt instruments held in Target UCIs may be less frequent than the Sub-Fund's NAV calculation. In such case, the valuation of instruments will be performed according to the Target UCI valuation policy but not all pricing parameters or other relevant information may be included in such valuation.

Investors should be aware that the portfolio of the Sub-Fund will be subject to high market risks and no assurance can be given that the investment objectives of this Sub-Fund will be achieved.

Co-Investment Managers

The AIFM has delegated the investment management function of the Sub-Fund to both:

- **Union Bancaire Privée, UBP SA**, registered office at 96-98 rue du Rhône, CH-1211 Geneva 1, Switzerland and;
- **Partners Group AG**, registered office at Zugerstrasse 57, 6341 Baar-Zug, Switzerland have been appointed as Co-Investment Manager of this Sub-Fund;

namely the "Co-Investment Managers".

It has been decided that the investment management decisions will be made by an Investment Committee that will be composed of portfolio managers from both companies. The Investment Committee is an independent structure jointly created by the Co-Investment Managers for the exclusive purpose described herebelow and does not constitute an internal committee of the Fund itself.

The decisions made by the Investment Committee will be made jointly by consensus.

Investment decisions will include:

- Selection of Target UCI;
- Allocation in Target UCI;
- Allocation of the net assets to be kept in Money market & short term bonds;
- Monitoring of the investment restrictions;
- Advise the AIFM and/or the Board of Directors on matters relating to investments as well as activation of the gate mechanism.

When the Investment Committee decides that part of the available proceeds will be invested directly in money market & short term bonds rather than Money market & short term bond funds, Union Bancaire Privée, UBP SA will be in charge of managing these money market & short term bonds

Sub-Fund weekly NAV and subscription and redemption schedule

Notice & Cut-off (LU time)	NAV Date (D)	Calculation Date	Settlement for subscription and redemption (at the latest)
One Business Day before the NAV Date 1pm (D-1)	Each Thursday. If Thursday is not a Business Day, the next Business Day (D)	D+3 Business Days	D+5 Business Days

Net Asset Value (“NAV”) Calculation

The weekly NAV will be dated each Thursday (D). If Thursday is not a Business Day, the NAV will be dated the next Business Day.

The NAV dated D is calculated and published three Business Days after the NAV Date.

When calculating the NAV dated D, on the Calculation Date, the Administrator will take into consideration the portfolio transactions done on or before NAV Date and subscription/redemption requests submitted for this NAV.

When calculating the NAV, the Administrator will use the closing prices from the NAV Date.

For Target UCIs, the Administrator will use the net asset values dated as of the date of the relevant Sub-Fund’s Net Asset Value. In case an underlying net asset value is not yet calculated or available as of the relevant Sub-Fund’s NAV Date, the last available net asset value will be used as basis for the calculation.

The NAV is calculated by dividing the value of net assets for each class by the total number of shares outstanding on this date in the class concerned, rounding off the amount obtained to the nearest whole hundredth for each share in the currency of the class concerned.

A ‘Business Day’ in this context is any full bank business day in Luxembourg, London and New York.

Terms of subscription and redemption

The Shares are issued at a price corresponding to the Net Asset Value per share of the Share Type. This price may be increased by a front-end load representing up to 3% of the net value payable to intermediaries involved in the subscription process for all Share Types.

Subscription and redemption (weekly NAV)

Subscription and Redemption applications will be processed on a weekly basis after the Initial launch date. In order to process the applications at the net asset value on a NAV Date, applications for subscriptions and redemptions must be received by the transfer agent by 1:00 PM (13:00) Luxembourg time one Business Day before the NAV Date.

Subscription and Redemption applications can be done in amount or in number of shares.

If the payment date is not a business day for the currency of the Share Class, the payment will be delayed until the following currency business day.

Conversions

No conversion of Shares out of this Sub-Fund or into this Sub-Fund is possible.

The conversion of Shares between Share Classes of this Sub-Fund (when available) is allowed.

Management Fee

The AIFM receives out of the assets of the Sub-Fund a Management Fee and a Performance Fee.

The Management Fee rate is described in the paragraph “Classes of Shares” and is calculated on the average net assets as of each NAV Date during each calendar quarter payable quarterly in arrears.

Share Classes of Target UCIs, managed by one of the Co-Investment Managers and invested by the Sub-Fund, will fully waive or rebate any management fee.

Performance Fee

For the Shares which include the letter “P” in their name, the AIFM may receive a performance fee as described below. The performance fee is calculated individually for each Sub-Fund Share Class.

In relation to each Class, the performance fee will correspond to a percentage of the Class excess return against the benchmark performance ("Class Excess Return"). The “Benchmark” is the ICE BofA Fed Funds Effective Rate Index.

If the Class Excess Return is negative or equal to zero, the Class will not pay any performance fee.

The performance fee is payable on a yearly basis in arrears at the end of the financial year and is equivalent to 10% (“Performance Fee Percentage”) of the Class Excess Return for each Class. The performance fee is calculated based on the Net Asset Value after deducting any expenses and the Management Fee (but not the performance fee) and is adjusted in order to take subscriptions and redemptions into consideration.

In order to foresee the possible performance fee payment at the end of the financial year, the Sub-Fund makes accruals at each Net Asset Value calculation.

During the financial year, if the Class return is lower than that of the Benchmark, the accruals equivalent to the total amount of performance fees are reversed at each Net Asset Value calculation of the concerned Class. If these accruals amount to zero, no performance fee will be charged.

At the beginning of each financial year, when calculating the net return of each Class, the initial NAV is the last NAV of the previous financial year without taking into account if the Class has under- or over-performed the Benchmark the previous year (subject to the High Water Mark principle described below).

The performance fee calculation is reset to zero each year. In any case, for a performance fee to be paid, the NAV (since the initial date on which the performance fee was applied to the Class) must have reached a new historical maximum value after deducting the performance fee paid and at the same time must have exceeded the Benchmark. If the relative change between the old and new maximum historical NAV is less than the annual excess return achieved, the performance fee may only be received based on the performance change between the old and new maximum historical value for the NAV (High Water Mark principle). If the performance fee is charged, the new maximum historical value for the NAV, less the performance fee paid, will represent the new starting point for determining the future performance fee (the "High Water Mark").

If investors ask for their Shares to be redeemed before the end of the financial year, the total outstanding performance fees corresponding to such shares will be paid to the AIFM at the end of the year.

The period for the first performance fee calculation for each Class will start at the initial subscription and run through to the end of the financial year.

No Performance Fee or Management Fee is charged for Type Z Shares.

Service fee

The AIFM receives a Service Fee (max. 0.215% p.a. of the average net assets of the relevant Class of each Sub-Fund) from the Fund, with a minimum fee of EUR 45,000 per year per Sub-Fund, out of which it remunerates CACEIS for its services as Administrative Agent and Registrar and Transfer Agent of the Fund and the Depositary in accordance with normal practice in Luxembourg.

Depositary fee

The Depositary is entitled to receive a depositary fee payable out of the above mentioned Service Fee.

Administration fee

The Administrative Agent is entitled to receive an administration fee payable out of the above mentioned Service Fee. In addition to its remuneration CACEIS is also entitled to receive fixed fees of up to EUR 15 per subscription / redemption transaction.

Any external services linked to specific one-off work provided by CACEIS are billed separately to the Fund.
