Pursuant to Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the "Disclosures Regulation" or "SFDR"), funds are required to make certain disclosures. Funds falling under the scope of Article 6 of the SFDR are those which have been deemed not to pursue an investment approach that explicitly promotes environmental or social characteristics or has sustainable investment as their objective. The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities. Notwithstanding this classification, the Investment Managers may take account of certain sustainability risks as further described in the fund's prospectus. Funds falling under the scope of Articles 8 or 9 of the SFDR are those subject to sustainability risks within the meaning of the SFDR. The sustainability risks and principal adverse impacts as stipulated in the SFDR are described in the prospectus. In addition, unless otherwise specified, all funds apply the UBP Responsible Investment policy, which is available on <https://www.ubp.com/en/investment-expense/responsible-investment>.

UBP relies on information and data collected from ESG third party data providers which may prove to be incorrect or incomplete. Although UBP applies a proven selection process of such third-party providers, its processes and proprietary ESG methodology may not necessarily capture appropriately the ESG risks. Indeed, data related to sustainability risks or PAI are today either not available or not yet systematically and fully disclosed by issuers, may be incomplete and may follow various methodologies. Most of the ESG factors information is based on historical data that they may not reflect the future ESG performance or risks of the investments.

ESG information providers: Although Union Bancaire Privée, UBP SA, ESG information providers (the "ESG Parties") obtain information from sources they consider reliable, none of the ESG Parties warrants or guarantees the originality, accuracy and/or completeness of any data herein. None of the ESG Parties makes any express or implied warranties of any kind, and the ESG Parties hereby expressly disclaim all warranties of merchantability and fitness for a particular purpose, with respect to any data herein. None of the ESG Parties shall have any liability for any errors or omissions in connection with any data herein. Further, without limiting any of the foregoing, in no event shall any of the ESG Parties have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Private Debt Funds: There is no assurance that investments in private debt funds will always be sufficiently liquid to meet redemption requests as and when made. Any lack of liquidity may affect the shares of the fund and the value of its investments. Private market investments are long-term investments that typically display more uncertainty and less liquidity and transparency than many other investments (e.g. listed securities). Certain investments are valued on the basis of estimated prices and therefore subject to potentially greater pricing uncertainties than listed securities. In addition, investors may not be able to sell assets held in private debt funds when they choose to or realise what they perceive to be the fair value upon a sale. Investors should be aware that the portfolio of the sub-fund will be subject to high market risks and no assurance can be given that the investment objectives of this sub-fund will be achieved. Investors should carefully read the fund and sub-fund's risk warnings, in particular the specific risks concerning private debt markets stated in the prospectus, before investing in the sub-fund.

Any subscriptions not based on the fund's latest prospectus, annual or semi-annual reports or other relevant legal documents (the "Fund's Legal Documents") shall not be acceptable.
