UBAM - EURO CORPORATE IG SOLUTION

Optimising income in EUR while maintaining similar risk characteristics as the euro investment-grade corporate bond market

UBAM - Euro Corporate IG Solution is an innovative fund that provides liquid exposure to the European investment-grade market through a top-down investment process.

Key points

- *Outperformance of CDS strategies over cash bond strategies over the long term and during crises*
- *Investment-grade portfolio with a typical maturity of 5 years and no economic leverage*
- *Top-down macroeconomic-driven process to actively manage the interest rate and credit exposure*
- *Use of standardised and cleared interest rate and credit derivatives*
- *Experienced investment professionals with expertise in European investment-grade bond and derivative markets*

Investment case

UBAM - Euro Corporate IG Solution was launched with the aim of optimising income in EUR while maintaining similar risk characteristics as the euro investment-grade corporate bond market. The fund uses cleared, liquid CDS indices for credit exposure and fixed income interest rate futures for rate exposure.

Fund concept

UBAM - Euro Corporate IG Solution is an innovative fund that offers liquid exposure to the European investment-grade market, maintaining, abundant liquidity thanks to its exclusive use of CDS indices for credit exposure.

The investment-grade CDS index market offers high liquidity in all market conditions, in particular compared with the traditional bond market, along with very tight and stable bid-offer spreads.

At the neutral point, the fund's risk characteristics of interest rate and credit spread exposure will always match that of the European investment-grade market.

UBAM - Euro Corporate IG Solution is actively managed with the ability to vary interest rates +/- 2 years, credit spreads +/- 2 years and allocate 'a maximum of 25% to the US.

Investment process

The UBAM - Euro Corporate IG Solution's investment process is based on our Fixed Income team's proven macro-driven approach:

- We determine a 6–9-month macroeconomic scenario based on in-house economic indicators and the analysis of business cycles and monetary policies in the main geographical areas. Our in-house indicators have proven consistently effective over the past fifteen years.
- We identify the main market themes, such as monetary policies (LTRO, QE), the eurozone sovereign crisis, banking regulations and their consequences for the investment-grade segment in terms of valuations and investor positioning.
- The resulting top-down allocation view determines our interest rate exposure, credit spread exposure and geographical allocation.

Investment guidelines

- Investment-grade only
- Interest rate exposure: +/- 2 years versus EUR IG market
- Credit spread exposure: +/- 2 years versus EUR IG market
- Maximum exposure to US: 25%

Investment team

- Thirteen-strong team overseeing CHF 19.4 billion worth of fixed-income assets as at 31 December 2019.
- Proven expertise in CDS index management
- Led by Philippe Gräub, who has twenty years' financial markets experience of which thirteen years managing and growing the UBP Global and Absolute Return Fixed Income franchise.
