What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of U ACCESS (Ireland) UCITS P.L.C., an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as an open-ended umbrella investment company (the Company) with variable capital under the laws of Ireland.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

OBJECTIVES

The Fund seeks to grow capital through all market environments, while emphasizing the preservation of capital.

The Fund is actively managed and not with reference to a benchmark.

The Fund may invest in fixed income type instruments such as U.S. and non-U.S. high yield, distressed and investment grade corporate debt related instruments or U.S. and non-U.S. government debt related instruments and hybrid securities and credit derivative instruments. It is expected that the majority of the Fund's exposure will be to high yield corporate debt related instruments. The Fund's exposure to distressed corporate debt related instruments is not expected to exceed 10% of the Fund's Net Asset Value ("NAV"). Debt related securities including Rule 144A or Reg S securities, may be fixed and /or floating rate, either rated or unrated with a minimum credit quality at the time of purchase of D as rated by Standard & Poor (or other rating agency).

The Portfolio Manager has substantial experience taking long and short positions in the high yield and synthetic credit markets. They will employ a quantitative and qualitative investment process that seeks to identify undervalued high yield investments, as well as those most likely to default.

The Fund will also gain exposure to U.S. and non-U.S. equity instruments, rights, listed or over-the-counter options, interest rate swaps, fixed income index swaps, futures, bond forward and FX forward contracts on a long and/or "synthetic short" basis. It is not expected that the Fund will be primarily exposed to equity securities however the Fund may receive equity securities through a corporate reorganization as part of the distressed strategy or through the potential conversion of a convertible bond position in the Fund.

The Fund may take synthetic short and synthetic long positions (i.e. equivalent economically to short or long positions but implemented synthetically through Financial Derivatives Instruments (FDIs)). The Fund may invest either directly or indirectly through FDIs, up to 30% of its Net Asset Value (NAV) in securities of companies listed or traded on permitted markets in emerging countries.

The Fund shall not exceed in aggregate 10% of its NAV in investments in eligible Collective Investment Schemes (CIS).

The Fund may gain exposure to financial indices compliant with the UCITS Regulations indirectly through the use of FDIs.

The Fund will invest in FDIs for investment, hedging and/or efficient portfolio management purposes. It may also invest in cash and/or money market instruments.

The Fund's base currency is USD.

The Fund is suitable for investors seeking a long-term investment who are willing to accept a high volatility due to the Fund's investment policy. Investors should note that holding a substantial proportion of their investment portfolio in the Fund may not be appropriate.

The recommended holding period is determined to allow sufficient time for this product to reach its objectives and provide a consistent return less dependent on market fluctuations. Nevertheless, such return is not guaranteed.

The return of the product is determined using the Net Asset Value (NAV) calculated by the Administrator. This return depends mainly on the market value fluctuations of the underlying investments.

Any income received by the Fund is reinvested (capitalisation share).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with average knowledge of the underlying financial instruments and some financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment over 3 years.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level. Poor market conditions could impact the Fund's capacity to pay you.

Be aware of currency risk. You will receive payments in a currency other than your local currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the prospectus for more information on the specific and material risks relevant to the Fund not included in the summary risk indicator.

This Fund does not include any protection from future market performance, so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		3 years USD 10'000		
		If you exit after 1 year	If you exit after 3 years

What happens if Carne Global Fund Managers (Ireland) Limited is unable to pay out?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the custodian/Depositary. If the (insert UCITS or AIF etc.) is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time (*)

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10'000 is invested.

Investment of USD 10'000	If you exit after 1 year	If you exit after 3 years
Total costs	USD 706	USD 1'279
Annual cost impact	7.1%	3.9%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.9% before costs and 3.0% after costs.

These figures include the maximum subscription fee that the intermediary(ies) involved in the subscription process may charge (up to 5.00% of your investment). The intermediary will inform you of the actual charge.

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 3 years.

The RHP is determined to allow sufficient time for this product to reach its objectives and to provide a consistent return less dependent on market fluctuations. Investors should be prepared to remain invested for at least 3 years but can nevertheless redeem their investment at any time, or hold the latter for a longer period of time.

The dealing Net Asset Value (NAV) is weekly, dated each Wednesday being a full bank business day in Ireland or in New-York or in the United Kingdom (each a Business Day). In other cases, the NAV will be set on the next Business Day. Redemptions are possible on each NAV date. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 17:00 (Ireland time) three (3) Business Days prior to the NAV Date. Redemption proceeds shall be paid within four (4) Business Days following the redemption NAV date.

Conversion of shares is allowed within the Fund free of charge.

Please refer to the prospectus for further details.
