What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of UBAM, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 10 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

OBJECTIVES

The Fund seeks to grow your capital and generate income by using two sub-strategies which translates into an equity market neutral exposure at the Fund level:

- investing primarily in equities issued by companies having their registered office in the European Union, the United Kingdom, Switzerland and/or in the European Economic Area.
- hedging the equity exposure with a discretionary proprietary overlay strategy using derivatives such as but not limited to options and futures on European equities indices or related volatility equities indices. The use of this strategy intends to provide a better risk adjusted return with lower volatility and reduced drawdown.

The Fund is actively managed and may invest up to 25% of its net assets, in warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities and money market instruments.

The Fund is not managed in reference to a benchmark.

The Fund's base currency is EUR.

As an equity fund, its holdings can move in line with or return less than the broad stock market, so investors should be aware that the value of their holdings could fall and that they may not get back their initial investment.

The share currency risk in relation to the Fund's base currency is mainly hedged.

Any income received by the Fund is reinvested (capitalisation share class).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment over 5 years.

OTHER INFORMATION

The depositary is BNP Paribas S.A., Luxembourg Branch.

The registrar and transfer agent is Caceis Bank, Luxembourg Branch.

Further information about the Fund (including the prospectus, latest annual and semi-annual reports, latest NAVs) are available free of charge on www.ubp.com or by making a written request to the registered office of the product manufacturer.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		5 years CHF 10'000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

Unfavourable scenario	What you might get back after costs	CHF 8'970	CHF 8'740	This type of scenario occurred for an investment in the product between October 2020 and June 2022.
	Average return each year	-10.3%	-2.6%	
Moderate scenario	What you might get back after costs	CHF 9'970	CHF 10'880	This type of scenario occurred for an investment in the proxy then the product between July 2014 and July 2019.
	Average return each year	-0.3%	1.7%	
Favourable scenario	What you might get back after costs	CHF 11'060	CHF 12'520	This type of scenario occurred for an investment in the proxy between December 2012 and December 2017.
	Average return each year	10.6%	4.6%	

The stress scenario shows what you might get back in extreme market circumstances.

What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV. The assets of the Fund cannot be used to pay the debts of other sub-funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10'000 is invested

Investment of CHF 10'000	If you exit after 1 year	If you exit after 5 years
Total costs	CHF 534	CHF 1'691
Annual cost impact (*)	5.3%	3.0%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.7% before costs and 1.7% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay in when entering this Investment.	Up to CHF 300
