What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of UBAM, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 10 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

OBJECTIVES

The Fund seeks to grow your capital and generate income by investing primarily in regulated UCITS and non-UCITS funds which have as investment objective to invest in alternative strategies such as but not limited to Equity Long Short, Equity Market Neutral, Fixed Income Arbitrage, Global Macro, Commodity Trading Advisor (trend followers).

The non-UCITS funds will have an investment policy and a risk exposure similar to the UCITS funds and will be submitted to a regulatory supervision equivalent to a UCITS.

The Fund is actively managed and will provide a diversified source of return by undertaking a careful manager selection in order to decrease the risk described in normal market conditions.

The Fund will also invest in eligible closed ended UCIs which are listed or dealt on a regulated market.

The Fund is not managed in reference to a benchmark.

The Fund can invest in Contingent Convertible bonds ("CoCos"), through funds which invest on an ancillary basis in CoCos.

On an ancillary basis, the Fund may also invest in liquid assets up to 20% of its net assets, as well as derivative instruments for hedging and/or investment and/or efficient portfolio management purposes.

The Fund's base currency is USD.

As a fund of funds implementing alternative strategies, investors should be aware that the value of their holdings could fall and that they may not get back their initial investment.

The share currency risk in relation to the Fund's base currency is mainly hedged.

Any income received by the Fund is reinvested (capitalisation share class).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with average knowledge of the underlying financial instruments and some financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment over 5 years.
