This KID is accurate as at 17/02/2023.

What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of U ACCESS, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 20 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

OBJECTIVES

The Fund seeks to grow your capital and generate income by investing primarily in a wide range of fixed income instruments (both Investment grade and High yield).

The Fund has a maturity date of 22 December 2026 unless the terms are changed before said date.

Due to the maturity date, the portfolio turnover will be relatively low.

The Fund invests in products/issuers with a minimum rating of B- (S&P or Fitch), B3 (Moody's) or an equivalent rating by another rating agency.

If the rating is downgraded below B-/B3 or equivalent, the security may be kept or sold, at the Investment Manager's discretion and in the best interest of the shareholders.

The Fund is allowed to invest in other currencies than its base currency (USD). The currency risk against USD will be largely hedged.

The Fund is not managed with reference to a benchmark.

The Fund may invest its net assets up to:

- 100% in High yield
- 60% in Emerging countries
- 20% in Contingent Convertible bonds (CoCos).

The Fund may be exposed to High yield credit via the use of CDS (Credit Default Swap) and may use derivatives instruments such as but not limited to CDS, FX forward, interest rate swaps and futures.

High yield bonds are issued by entities whose activity is more sensitive to the economic cycle and pay higher interest. The return on such securities, in the same way as their level of risk, is therefore higher than traditional bond products.

Exposure to high yield bonds is implemented via cleared and diversified high yield CDS indices. CDS indices offer a liquid exposure to high yield and bear minimal interest rate risk.

The Fund's base currency is USD.

Any income received by the Fund is distributed (distribution share class).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment over 4 years.

OTHER INFORMATION

The depositary is BNP Paribas S.A., Luxembourg Branch.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 4 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		4 years USD 10'000		
		If you exit after 1 year	If you exit after 4 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	USD 3'840	USD 4'370	
	Average return each year	-61.6%	-18.7%	
Unfavourable scenario	What you might get back after costs	USD 8'220	USD 8'580	This type of scenario occurred for an investment in the proxy between August 2021 and June 2022.
	Average return each year	-17.8%	-3.8%	
Moderate scenario	What you might get back after costs	USD 9'930	USD 11'000	This type of scenario occurred for an investment in the proxy between March 2015 and March 2019.
	Average return each year	-0.7%	2.4%	
Favourable scenario	What you might get back after costs	USD 10'910	USD 11'860	This type of scenario occurred for an investment in the proxy between January 2016 and January 2020.
	Average return each year	9.1%	4.4%	

The stress scenario shows what you might get back in extreme market circumstances.

What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV. The assets of the Fund cannot be used to pay the debts of other sub-funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10'000 is invested

Investment of USD 10'000	If you exit after 1 year	If you exit after 4 years
Total costs	USD 439	USD 970
Annual cost impact (*)	4.4%	2.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.6% before costs and 2.4% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay in when entering this Investment.	Up to USD 300
Exit costs	Up to 0.50% of your investment before it is paid out to you. The person selling you this product will inform you of the actual charge.	Up to USD 50
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.03% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 103
Transaction costs	0.36% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 36
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	USD 0

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 4 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

The Net Asset Value (NAV) is weekly, dated each Monday being a full bank business day in Luxembourg or in the United States or in the United Kingdom (each a Business Day). In other cases, the NAV will be set on the next Business Day. The NAV is calculated the following full bank business day in Luxembourg (Calculation Day). Redemptions are possible on each NAV date as described above. All redemption requests must be received in good order by the registrar and transfer agent prior to 13:00 (Luxembourg time) one (1) Business Day prior to the NAV Date. Redemption proceeds shall be paid within two (2) Business Days following the Calculation Day.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.
