What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of UBAM, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 10 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

OBJECTIVES

The Fund seeks to grow capital and generate income by investing primarily in worldwide -including Emerging countries- equities or equivalent, with exposure to growth opportunities.

The Fund is actively managed. The investment concept is stock selection driven and focuses on companies with above market average revenue growth or improving growth rates as well as companies providing consistently economic valueadd, i.e. sustainably earning their cost of capital.

The Environmental, Social and Governance (ESG) approach is embedded in the investment process of the Fund and the selection of stocks includes ESG considerations which can be an important driver for risks associated with an investment and for maintaining or improving Cash Flow Returns on Investment (CFROI® Credit Suisse HOLT) of a company. The qualitative sustainable analysis is partly based on inputs provided by MSCI ESG Research and on the Investment Manager's own analysis.

The primary sustainable objective of the Fund is to promote a carbon footprint lower than the MSCI AC World Index ("the Benchmark").

The Investment Manager performs a negative screening and a norm-based screening to filter the investment universe. ESG related information is entering the suitability screen of the stock selection process. The portfolio construction will consider ESG criteria as well as the contribution to risk that arises from ESG exposures. Company specific and portfolio factors including ESG developments are considered when constructing and monitoring the portfolio.

The ESG analysis covers 100% of the Fund's portfolio.

A performance fee in reference to the Benchmark is applied to some share classes. The Benchmark is representative of the investment universe and not representative of the risk profile of the Fund. The performance of the Fund is likely to be significantly different from that of the Benchmark because the Investment Manager has significant discretion to deviate from its securities and weighting.

The Benchmark is not aligned with the environmental and/or social characteristics promoted by the Fund.

The Fund's base currency is USD.

As an equity fund, its holdings can move in line with or return less than the broad stock market, so investors should be aware that the value of their holdings could fall and that they may not get back their initial investment.

Any income received by the Fund is reinvested (capitalisation share class).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment over 5 years.

OTHER INFORMATION

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		5 years USD 10'000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	USD 1'080	USD 1'130

The stress scenario shows what you might get back in extreme market circumstances.

What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV. The assets of the Fund cannot be used to pay the debts of other sub-funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10'000 is invested

Investment of USD 10'000	If you exit after 1 year	If you exit after 5 years
Total costs	USD 615	USD 2'955
Annual cost impact (*)	6.1%	3.8%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 13.3% before costs and 9.5% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay in when entering this Investment.	Up to USD 300
Exit costs	There is no exit fee for this product.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.69% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 169
Transaction costs	0.04% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 4
Incidental costs taken under specific conditions		
Performance fees	10.00% with the MSCI AC World Net Return as benchmark. See the section in the prospectus entitled "Performance Fee" for further details. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	USD 142

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 5 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

The Net Asset Value (NAV) is daily except if it is not a full bank business day in Luxembourg (each a Business Day). The NAV is calculated the following Business Day (Calculation Day). Redemptions are possible on each NAV date. All redemption requests must be received in good order by the registrar and transfer agent prior to 13:00 (Luxembourg time) on the NAV date. Redemption proceeds shall be paid within one (1) Business Day following the Calculation Day.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.
