## What is this product?

### TYPE OF PRODUCT

The Fund is a sub-fund of UBAM, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide on its pure and simple liquidation if its net assets represent less than EUR 10 million (or equivalent value in another currency) or if the economic and/or political environment was to change or for any economic and financial reasons for which the Board of Directors considers that it is in the general best interests of shareholders to liquidate the Fund.

### OBJECTIVES

The Fund seeks to grow your capital and generate income by investing primarily in worldwide convertible bonds or equivalent with a minimum rating of B- (S&P or FITCH) or B3 (Moody's) or an equivalent internal rating determined by the Investment Manager.

The Fund is actively managed.

The currency risk is limited to 10% of the net assets of the Fund.

The Fund promotes environmental (E) and social (S) characteristics while investing in companies with good governance practices. It aims to trend towards an average Environmental, Social and Governance (ESG) rating which is higher than that of the Refinitiv Global Hedged Convertible Bond Index (EUR) (the "Benchmark") and a lower carbon footprint (as measured by the weighted average carbon intensity).

The sustainability strategy is based on 2 main components:

- ESG exclusion criteria (negative screening);
- ESG inclusion approach (positive screening).

A qualitative sustainability analysis is performed on each selected security and is based on the assessment of climate risk, environmental strategy, social capital and corporate governance. Calculations of the ESG score/rating of the Fund are carried out only on bonds within the portfolio. The ESG analysis covers at least 80% of the Fund's net assets.

The Fund uses the Benchmark for performance objective. The Benchmark is representative of the investment universe and of the risk profile of the Fund. Although the Fund's securities will primarily correspond to those of the Benchmark, the Investment Manager has significant discretion to deviate from the Benchmark's constituents in respect to countries, sectors, issuers and instruments, in order to take advantage of specific investment opportunities. The Benchmark is not aligned with the environmental and/or social characteristics promoted by the Fund.

The Fund may invest its net assets up to:

- 100% in High yield (including non convertible bonds or similar up to 20%)
- 50% in Emerging countries
- 10% in equity (excluding preferred shares).

The equities held by the Fund will only be the result of bond conversions and will be sold within a period of maximum 6 months.

The Fund will not invest in Contingent Convertible bonds (CoCos).

High yield bonds are issued by entities whose activity is more sensitive to the economic cycle and pay higher interest. The return on such securities, in the same way as their level of risk, is therefore higher than traditional bond products.

The equity sensitivity of the Fund shall not exceed 70%.

The Fund may use derivatives such as but not limited to futures, swaps including Credit Default Swaps (CDS), options and foreign-exchange forward contracts in order to hedge the portfolio and/or expose it to equity, interest rate, credit, foreign-exchange and volatility risk.

The Fund's base currency is EUR.

The share currency risk in relation to the Fund's base currency is mainly hedged.

Any income received by the Fund is reinvested (capitalisation share class).

### INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment over 3 years.

### OTHER INFORMATION

The depositary is BNP Paribas S.A., Luxembourg Branch.

The registrar and transfer agent is Caceis Bank, Luxembourg Branch.

Further information about the Fund (including the prospectus, latest annual and semi-annual reports, latest NAVs) are available free of charge on www.ubp.com or by making a written request to the registered office of the product manufacturer.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

<b>Recommended holding period:</b>		<b>3 years</b>		
<b>Example investment:</b>		<b>USD 10'000</b>		
		<b>If you exit after 1 year</b>	<b>If you exit after 3 years</b>	
<b>Scenarios</b>				
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>			
<b>Stress scenario</b>	<b>What you might get back after costs</b>	USD 5'300	USD 5'860	
	Average return each year	-47.0%	-16.3%	
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	USD 7'440	USD 7'370	This type of scenario occurred for an investment in the product between February 2021 and June 2022.
	Average return each year	-25.6%	-9.7%	
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	USD 10'160	USD 10'610	This type of scenario occurred for an investment in the product between December 2013 and December 2016.
	Average return each year	1.6%	2.0%	
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	USD 13'110	USD 13'610	This type of scenario occurred for an investment in the proxy then the product between July 2012 and July 2015.
	Average return each year	31.1%	10.8%	

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if the product is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with BNP Paribas S.A., Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV. The assets of the Fund cannot be used to pay the debts of other sub-funds.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10'000 is invested

Investment of USD 10'000	If you exit after 1 year	If you exit after 3 years
<b>Total costs</b>	USD 434	USD 764
<b>Annual cost impact (*)</b>	4.3%	2.4%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.4% before costs and 2.0% after costs.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay in when entering this Investment.	Up to USD 300
Exit costs	There is no exit fee for this product.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.78% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 78
Transaction costs	0.56% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 56
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	USD 0

## How long should I hold it and can I take my money out early?

### Recommended Holding Period (RHP): 3 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

The Net Asset Value (NAV) is daily except if it is not a full bank business day in Luxembourg or in the United States (each a Business Day). The NAV is calculated the following full bank business day in Luxembourg (Calculation Day). Redemptions are possible on each NAV date. All redemption requests must be received in good order by the registrar and transfer agent prior to 13:00 (Luxembourg time) two (2) full bank business days prior to the Calculation Day. Redemption proceeds shall be paid within one (1) Business Day following the Calculation Day.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.
