This KID is dated 15/03/2024.

What is this product?

TYPE OF PRODUCT

The Fund is a sub-fund of U ACCESS (Ireland) UCITS P.L.C., an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as an open-ended umbrella investment company (the Company) with variable capital under the laws of Ireland.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

OBJECTIVES

The Fund seeks to achieve superior risk adjusted returns by exploiting fundamental and technical valuation aberrations in the credit markets.

The Fund is actively managed and not with reference to a benchmark.

The Portfolio Manager will undertake fundamental and comparative research to identify securities to achieve its investment objective and will tend to invest in companies with changes in balance sheet leverage, operating margins, cash flow or market share.

The Fund may invest in fixed income type instruments such as U.S. and non-U.S. government debt, high yield, distressed and investment grade corporate debt and debt related instruments and convertible bonds. Such instruments may be fixed and/or floating rate, either rated or unrated with a minimum credit quality at the time of purchase of D as rated by S&P (or equivalent by another rating agency).

The Fund can invest in equity instruments (i.e. common stocks, preferred stocks, equity securities of Real Estate Investment Trusts (REITs), American Depositary Receipts (ADRs) and/or Global Depositary Receipts (GDRs)). However, exposure to equity securities is not expected to be significant.

The Fund may create synthetic short positions (i.e. equivalent to short positions but implemented synthetically through FDIs). Such positions may be used to benefit from falling prices. Long positions will be used to benefit from an upturn in prices. The Fund's portfolio may consist generally of 50 to 150 long positions and 50 to 150 short positions.

The Fund shall not exceed in aggregate 10% of its NAV in investments in eligible Collective Investment Schemes (CIS).

The Fund may gain exposure to financial indices compliant with the UCITS Regulations indirectly through the use of FDIs.

The Fund will invest in FDIs for investment, hedging and/or efficient portfolio management purposes. It may also invest in cash and/or money market instruments.

The Fund's base currency is USD.

The Fund is suitable for investors seeking a long-term investment who are willing to accept a high volatility due to the Fund's investment policy. Investors should note that holding a substantial proportion of their investment portfolio in the Fund may not be appropriate.

The recommended holding period is determined to allow sufficient time for this product to reach its objectives and provide a consistent return less dependent on market fluctuations. Nevertheless, such return is not guaranteed.

The return of the product is determined using the Net Asset Value (NAV) calculated by the Administrator. This return depends mainly on the market value fluctuations of the underlying investments.

The share currency risk in relation to the Fund's base currency is mainly hedged.

Any income received by the Fund is reinvested (capitalisation share).

INTENDED RETAIL INVESTORS

The Fund is suitable for retail investors with average knowledge of the underlying financial instruments and some financial industry experience. The Fund is compatible with investors who may bear capital losses and who do not need capital guarantee. The Fund is compatible with clients who wish to hold their investment over 3 years.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level. Poor market conditions are unlikely to impact the Fund's capacity to pay you.

Be aware of currency risk. You will receive payments in a currency other than your local currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the prospectus for more information on the specific and material risks relevant to the Fund not included in the summary risk indicator.

This Fund does not include any protection from future market performance, so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		3 years GBP 10'000		
		If you exit after 1 year	If you exit after 3 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	GBP 8'950 -10.5%	GBP 8'940 -3.7%	
Unfavourable scenario	What you might get back after costs Average return each year	GBP 9'220 -7.8%	GBP 9'600 -1.4%	This type of scenario occurred for an investment in the product between December 2021 and December 2023.
Moderate scenario	What you might get back after costs Average return each year	GBP 9'750 -2.5%	GBP 10'260 0.9%	This type of scenario occurred for an investment in the product between June 2019 and June 2022.
Favourable scenario	What you might get back after costs Average return each year	GBP 10'330 3.3%	GBP 10'970 3.1%	This type of scenario occurred for an investment in the proxy then the product between December 2018 and December 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Carne Global Fund Managers (Ireland) Limited is unable to pay out?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the custodian/Depository. If the (insert UCITS or AIF etc.) is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time (*)

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- GBP 10'000 is invested.

Investment of GBP 10'000	If you exit after 1 year	If you exit after 3 years
Total costs	GBP 861	GBP 1'741
Annual cost impact	8.6%	5.4%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.3% before costs and 0.9% after costs.

These figures include the maximum subscription fee that the intermediary(ies) involved in the subscription process may charge (up to 5.00% of your investment). The intermediary will inform you of the actual charge.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year

Management fees and other administrative or operating costs	1.45% of the value of your investment per year. This is an estimate based on actual costs over the last year.	GBP 145
Transaction costs	2.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	GBP 202
Incidental costs taken under specific conditions		
Performance fees	15.00% of Net Profits subject to a Historical High Water Mark. See the section in the relevant supplement of the prospectus entitled "Fees and Expenses" for further details. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation mentioned includes the average over the last 5 years.	GBP 14

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 3 years.

The RHP is determined to allow sufficient time for this product to reach its objectives and to provide a consistent return less dependent on market fluctuations. Investors should be prepared to remain invested for at least 3 years but can nevertheless redeem their investment at any time, or hold the latter for a longer period of time.

The dealing Net Asset Value (NAV) is weekly, dated each Wednesday being a full bank business day in Ireland or in New-York (each a Business Day). In other cases, the NAV will be set on the next Business Day. Redemptions are possible on each NAV date as described above. All redemption requests must be received in good order by the Registrar and Transfer Agent prior to 17:00 (Ireland time) three (3) Business Days prior to the NAV Date. Redemption proceeds shall be paid within four (4) Business Days following the NAV Date.

Conversion of shares is allowed within the Fund free of charge.

Please refer to the prospectus for further details.
