

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

UBAM - Global Bond Total Return, a sub-fund of UBAM

Class: IPC USD (Capitalisation) LU1315139847

UBAM is a SICAV managed by UBP Asset Management (Europe) S.A.

Objectives and investment policy

The Fund seeks to grow capital and generate income primarily by investing in bonds, money market instruments and derivatives denominated in multiple currencies such as but not only limited to US Dollars, Euros, Japanese Yen, Pounds Sterling and Swiss Francs.

Derivatives may include but are not limited to Credit Default Swaps ("CDS"), futures, forward and options.

The Fund is actively managed with a total return approach and seeks a positive performance above the prevailing cash rate in the reference currency of any given share class.

A performance fee -defined in the Past Performance section- is applied to some share classes ("Benchmark 1").

The Fund's performance can also be compared to a benchmark composed of 80% Bloomberg Barclays Global Aggregate 1-10 years Total Return Index hedged into US Dollars and 20% of ICE BofAML Global High Yield Index hedged into US Dollars ("Benchmark 2").

Benchmark 2 is for information purposes only. The Fund's investment objective does not aim to replicate this Benchmark 2 or to define the Fund's investment universe.

Although the Fund's risk profile will be similar to the Benchmark 1 and 2, the portfolio's investments will deviate materially from the Benchmarks' constituents in respect to countries, sectors, issuers and instruments, in order to take advantage of specific investment opportunities.

The Fund may invest up to:

- 50% of its nets assets in High Yield
- 40% of its nets assets in Emerging markets
- 20% of its nets assets in Contingent Convertible Bonds

- 10% of its nets assets in Equity including equity derivatives.

The Fund's value is calculated and expressed in US Dollars.

Investors in the Fund can subscribe and redeem units on any business day in Luxembourg except days where the decisive markets are closed: United States (US), United Kingdom (UK), Eurex.

Details of the closing days are available here:

<https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

The recommended holding period is minimum three years.

Any income received by the Fund is reinvested (capitalisation share class).

Risk and reward profile

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk Category 3 reflects limited potential gain and/or loss in the value of the portfolio.

This is due to investments in fixed income securities on Emerging and high yield markets.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Counterparty risk: The use of over-the-counter derivatives exposes the Fund to a risk that the counterparty to the transactions will fully or partially fail to honor its contractual obligations. This may result in a financial loss for the Fund.

Credit risk: The Fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade.

Currency risk: The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

Emerging market risk: The Fund invests in developing overseas markets which carry a higher risk than investing in larger established markets. Investments in emerging markets are likely to experience greater rises and falls in value and may suffer trading problems. A Fund which invests in emerging markets rather than more developed countries may encounter difficulties when buying and selling investments. Emerging markets are also more likely to experience political uncertainty and investments held in these countries may not have the same protection as those held in more developed countries.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to trade at advantageous times or prices.

Full details of risks are disclosed in the chapter "Risk Factors" in the prospectus.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges	0.73%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	20.00%
-----------------	--------

20.00% with the US Dollar Overnight Deposit Offered Rate + 3% as benchmark

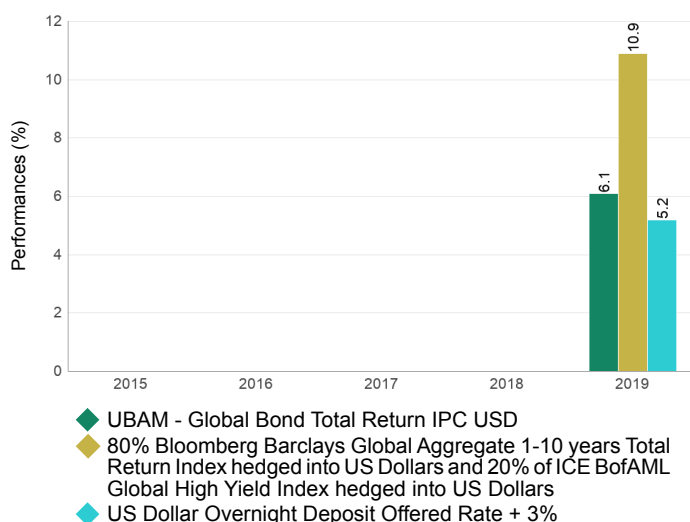

0.58% for the Fund's last financial year

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower. Your financial advisor or distributor can inform you of the associated entry and exit charges.

The indicated ongoing charges are an estimate based on the expected total amount of charges. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another fund.

For more information about Fund charges, please refer to the relevant sections of the prospectus, which is available at www.ubp.com.

Past performance

The performance figures shown in the bar chart are not a reliable indication of future performance.

Annualised performance is calculated after deducting all charges taken from the Fund.

Fund creation date: 16/10/2017

Share class launch date: 04/12/2018

Share class currency: USD

Please note that the Benchmark currency may differ from the share class currency.
