

## KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### UBAM - Absolute Return Low Vol Fixed Income, a sub-fund of UBAM

**Class: APD EUR (Distribution) LU0940720427**

UBAM is a SICAV managed by UBP Asset Management (Europe) S.A.

### Objectives and investment policy

The Fund seeks to grow capital and generate income primarily by investing in bonds, money market instruments, fixed income and currency derivatives such as but not limited to Credit Defaults Swaps ("CDS"), futures, swaps and options.

The Fund is allowed to invest without limits in currencies other than its base currency (Euro). These investments will be hedged so that the currency risk is limited to 30% of the net assets of the Fund.

A minimum of 50% of the bond investments will be in issuers deemed to maintain sustainable characteristics with a minimum ESG rating of BBB for developed market issuers and BB for emerging market issuers or if such rating is not available an equivalent internal rating assigned by the Investment Manager. ESG investment strategy is based on three pillars: (i) Sector exclusion according to the UBP Responsible Investment policy; (ii) ESG integration to select issuers through the analysis of environmental, social and governance factors; (iii) a preference for Green, Social and Sustainability bonds.

The Fund is actively managed with an absolute return approach and seeks a positive performance above the prevailing cash rate in the reference currency of any given share class while maintaining a volatility below 2%. A performance fee -defined in the Past Performance section- is applied to some share classes (the "Benchmark"). The Benchmark is not representative of the Fund's risk profile and the portfolio's investments will deviate materially from the Benchmark.

The Fund may invest up to:

- 50% of its net assets in High yield
- 40% of its net assets in Emerging countries (including China through Bond Connect)

The Fund's value is calculated and expressed in Euros.

Investors in the Fund can subscribe and redeem units on any business day in Luxembourg except days where the decisive markets are closed: United States (US), United Kingdom (UK), Eurex.

Details of the closing days are available here:

<https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

The recommended holding period is minimum two years.

Any income received by the Fund is distributed (distribution share class).

### Risk and reward profile

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk Category 2 reflects low potential gain and/or loss in the value of the portfolio.

This is due to investments in fixed income securities on the worldwide market.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

**Counterparty risk:** As the Fund uses over-the-counter derivatives, there is a risk that the counterparty to the transactions will wholly or partially fail to honour its contractual obligations. This may result in a financial loss to the Fund.

**Credit risk:** The Fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade.

**Currency risk:** The Fund invests in overseas markets. It can be affected

by changes in exchange rates which may cause the value of your investment to decrease or increase.

**Emerging country risk:** The Fund invests in developing overseas countries which carry a higher risk than investing in larger established countries. Investments in Emerging countries are likely to experience greater rises and falls in value and may suffer trading problems. A Fund which invests in Emerging countries rather than more developed countries may encounter difficulties when buying and selling investments. Emerging countries are also more likely to experience political uncertainty and investments held in these countries may not have the same protection as those held in more developed countries.

**ESG and Sustainability risk:** it may result in a material negative impact on the value of an investment and performance of the Fund. Assessment of sustainability risks is complex and requires subjective judgments, which may be based on data which is difficult to obtain and/or incomplete, estimated, out of date or otherwise materially inaccurate. All or part of said data may come/originate from third parties.

**Liquidity risk:** Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to transact at advantageous times or prices.

Full details of risks are disclosed in the chapter "Risk Factors" in the prospectus.

## Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

### Charges taken from the Fund over a year

Ongoing charges	0.46%
-----------------	-------

### Charges taken from the Fund under certain specific conditions

Performance fee	20.00%
-----------------	--------

20.00% with the €STR + 1% as benchmark  
0.00% for the Fund's last financial year

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower. Your financial advisor or distributor can inform you of the associated entry and exit charges.

Ongoing charges are based on the charges for the previous year, ending on 31 December 2021. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another fund.

**For more information about Fund charges, please refer to the relevant sections of the prospectus, which is available at [www.ubp.com](http://www.ubp.com).**

## Past performance

The performance figures shown in the bar chart are not a reliable indication of future performance.

Annualised performance is calculated after deducting all charges taken from the Fund.

Fund creation date: 19/06/2013

Share class launch date: 23/08/2013

Share class currency: EUR

Prior 01/01/2022, the Benchmark was EONIA + 1%.
