

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

U ACCESS - Best Selection China A, a sub-fund of U ACCESS

Class: IPC USD (Capitalisation) LU1223211936

U ACCESS is a SICAV managed by UBP Asset Management (Europe) S.A.

Objectives and investment policy

The Fund seeks to grow capital and generate income primarily by investing in Chinese equities. In order to achieve its investment policy, the Fund will invest in China A-shares through the Shanghai Hong Kong Stock Connect and/or through the Renminbi Qualified Foreign Institutional Investor ("RQFII").

The Fund is actively managed and concentrated, investing mainly in securities whose value is expressed in Renminbi.

A performance fee in reference to the MSCI China A Net Total Return Index is applied to some share classes (the "Benchmark"). The Benchmark is not representative of the Fund's risk profile and the portfolio's investments will deviate materially from the Benchmark.

The Fund's value is calculated and expressed in Renminbi.

The share currency risk in relation to the base currency CNH is not hedged.

Investors in the Fund can subscribe and redeem units on any business day in Luxembourg except days where the decisive market is closed: Shanghai (CN).

Details of the closing days are available here:

<https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

The recommended holding period is minimum five years.

As an equity fund, its holdings can move in line with or return less than the broad stock market, so investors should be aware that the value of their holdings could fall and that they may not get back their initial investment.

Any income received by the Fund is reinvested (capitalisation share class).

Risk and reward profile

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk category 6 reflects a very high potential gain and/or loss in the value of the portfolio.

This is due to investments in equities on the Chinese market.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Counterparty risk: The use of over-the-counter derivatives exposes the Fund to a risk that the counterparty to the transactions will fully or partially fail to honour its contractual obligations. This may result in a financial loss for the Fund.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to trade at advantageous times or prices.

Operational risk: The Fund will be subject to operational risk, clearing settlement and custody risk when using the Shanghai Hong Kong Stock Connect and RQFII.

Political and Social risk: Investments in China will be sensitive to any political, social and diplomatic developments which may take place in or in relation to China. Investors should note that any change in the policies of China may adversely impact on the securities.

RQFII licence quota risk: The Chinese regulatory authorities have wide discretionary prerogatives to add regulation or modify the current rules. The RQFII licence is subject to ongoing review by the Chinese authorities and may be revised, reduced or withdrawn at any time.

Stock Connect quota limitations risk: Investing via Stock Connect is subject to regulatory risks. The relevant rules and regulations are subject to change which may have potential retrospective effect. Stock Connect is subject to quota limitations on investment, which may restrict the Fund's ability to invest in China A-Shares through the Stock Connect on a timely basis and the Fund may not be able to effectively pursue its investment policy. Suspension risk may also occur. China Markets reserve the right to suspend trading if necessary for ensuring an orderly and fair market and managing risks prudently which would affect the Fund's ability to access the Mainland China markets.

Full details of risks are disclosed in the chapter 'Risk Factors' in the prospectus.
