UNION BANCAIRE PRIVÉE

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

UBAM - Europe 10-40 Convertible Bond, a sub-fund of UBAM

Class: IHC CHF (Capitalisation) LU0500232144

UBAM is a SICAV managed by UBP Asset Management (Europe) S.A.

Objectives and investment policy

The Fund seeks to grow your capital and generate income primarily by investing as a master / feeder structure at least 85% in the sub-fund UBAM Convertibles Europe 10-40 part of the French Sicav UBAM Convertibles.
The Master, UBAM Convertibles Europe 10-40, is an investment fund offering exposure to the Convertible Bond asset class, mainly from Europe.

It is an actively managed, well diversified porfolio mainly made up of eurodenominated convertible bonds or equivalent bonds, rated or unrated, whose underlying and/or issuer is a company with its headquarters in an OECD member state or listed on a European Market, with substantial weighting given to Europe countries. Thus the Master may be exposed to high yield bonds.

In addition, the Master may invest up to 20 % in non convertibles or similar bonds. The Master currency risk will be hedged systematically with the aim of achieving a residual direct exposure of less than 10%.

The Fund may invest up to:
- 15% of its net assets in liquid assets or derivative financial instruments (for hedging purpose).

Convertible bonds are debt instruments that can be converted into equities under certain conditions. This means that they have characteristics comparable to those of equities while maintaining the characteristics of conventional bonds.
High yield bonds are issued by companies whose business is more sensitive to the economic cycle and pay higher interest. The return on such securities, in the same way as their level of risk, is therefore higher than traditional bond products.

The Master has a target exposure to equity markets of between 10% and 40% (with a maximum of 50%).
For managing overall exposure to equities and interest-rate risk, the Master may use derivative instruments (futures, options, etc.) in order to expose and/or hedge the portfolio.

The Fund's value is calculated and expressed in Euros.
The currency risk in relation to the base currency EUR is mainly hedged.

Investors in the Fund can subscribe and redeem units on any business day in luxembourg except days where the decisive market is closed: France (FR)
Details of the closing days are available here: https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa.
The recommended holding period is three years.

Considering that less than 100% of the Fund is invested in the Master, the Fund's performance can be slightly different than the Master's.

Any income received by the Fund is reinvested (capitalisation share class).

Risk and reward profile

With lower risk, **With higher risk,**

potentially lower rewards **potentially higher rewards**

1	2	**3**	4	5	6	7

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk Category 3 reflects limited potential gains and/or losses for the portfolio.

This is due to investments in bonds on the European market.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Credit risk: The Fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to transact at advantageous times or prices.

Currency risk: The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

Counterparty risk: As the Fund uses over-the-counter derivatives, there is a risk that the counterparty to the transactions will wholly or partially fail to honour its contractual obligations. This may result in a financial loss to the Fund.

Full details of risks are disclosed in the chapter "Risk Factors" in the prospectus.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the Fund over a year	
Ongoing charges	1.15%

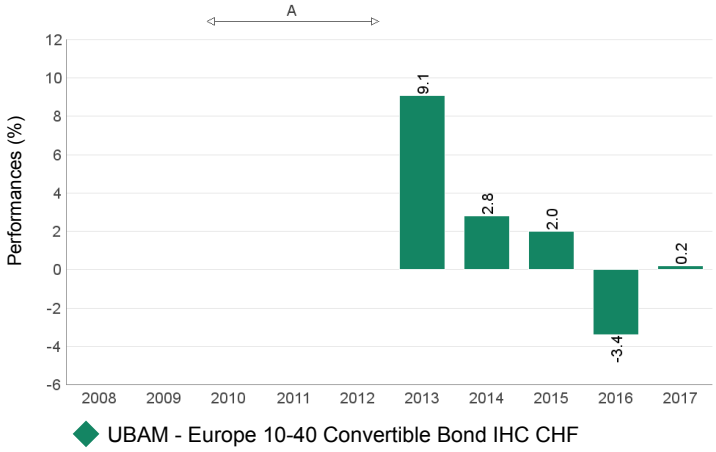
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower. Your financial advisor or distributor can inform you of the associated entry and exit charges.

Ongoing charges are based on the charges for the previous year, ending on 31 December 2017. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another Fund.

For more information about Fund charges, please refer to the relevant sections of the prospectus, which is available at www.ubp.com.

Past performance



The performance figures shown in the bar chart are not a reliable indication of future performance.

Annualised performance is calculated after deducting all charges taken from the Fund.

Fund creation date: 06/04/2010
Share class launch date: 09/10/2012

Share Class Currency: CHF

A: Investment policy changed on 05/07/2012
