U ASSET ALLOCATION is a SICAV managed by UBP Asset Management (Europe) S.A.

Objectives and investment policy

The Fund seeks to generate a high level of capital gain across the investment horizon by investing directly or indirectly through funds.

SEA stands for:

Swiss equities as within the equity allocation, there is a 10% minimum bias towards Swiss equities.

Environmental, Social and Governance (ESG) considerations which are part of the investment and instrument selection process. Asset types are selected in a multi-level review process based on both positive and negative criteria (exclusion). ESG research is not limited to ESG ratings, but may also include business involvement screening, controversy screening and sustainable impact metrics.

Active, as the Fund is actively managed and features an active instruments selection.

The Fund is not managed in reference to a benchmark.

Besides the Swiss equities bias, there is no restriction as to the country of the issuer including emerging countries and the Fund may invest up to:

- 100% of its net assets in fixed income instruments
- Including up to*
- 10% of its net assets in Contingent Convertible bonds (Cocos)*

* indirectly, through funds only

Financial derivatives such as but not limited to Credit Default Swap (CDS), financial futures and option may be used for effective portfolio management and/or for hedging purposes.

In addition, the Fund can invest in structured products which will be classified according to the nature of their underlyings for the calculation of the above limits.

Direct or indirect investments in fixed-income instruments or issuers with a rating below BBB- (Fitch Ratings Ltd.) or BBB- (Standards & Poor's) or Baa3 (Moody's) or no rating are allowed up to 40% of the total net assets of the Fund.

The Fund is allowed to invest in other currencies than the US Dollar. The currency risk associated may or may not be hedged at the Investment Manager's discretion. However, in any cases, the portfolio base currency exposure will range from 30% to 110%. The Fund's performance can therefore be affected by fluctuations in those currencies against the base currency.

The Fund's value is calculated and expressed in US Dollars.

Investors in the Fund can subscribe and redeem units on any business day in Luxembourg.

Details of the closing days are available here:

<https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.
The recommended holding period is minimum three to five years.

Any income received by the Fund is distributed (distribution share class).

Risk and reward profile

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk category 5 reflects a high potential gain and/or loss in the value of the portfolio.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Counterparty risk: The use of over-the-counter derivatives exposes the Fund to a risk that the counterparty to the transactions will fully or partially fail to honor its contractual obligations. This may result in a financial loss for the Fund.

Credit risk: The Fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to trade at advantageous times or prices.

Full details of risks are disclosed in the chapter "Risk Factors" in the prospectus.
