

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

UBAM - SRI European Convertible Bond, a sub-fund of UBAM

Class: UC EUR (Capitalisation) LU1273965407

UBAM is a SICAV managed by UBP Asset Management (Europe) S.A.

Objectives and investment policy

The Fund seeks to grow capital and generate income primarily by investing in convertible bonds or other similar securities with a minimum rating of B- (S&P or FITCH) or B3 (Moody's) or non rated.

The Fund offers exposure to convertible bonds meeting environmental, social and corporate governance (ESG) criteria. For this selection, the Fund relies on internal expertise and data provided by MSCI ESG Research.

The Fund is actively managed and well diversified mainly investing in Euro denominated convertible bonds or equivalent bonds, whose underlying and/or issuer is a company with its headquarters in an OECD member state or listed on a European Market, with at least two thirds of its net assets in companies which are domiciled or carry out an important part of their economic activity in European countries.

The Fund is actively managed and aims to outperform the Thomson Reuters Europe Hedged Convertible Bond Index (EUR) ("the Benchmark"). The Benchmark is representative of the investment universe and of the risk profile of the Fund.

Although the Fund's securities will primarily correspond to those of the Benchmark, the portfolio's investments can deviate from the Benchmark's constituents in respect to countries, sectors, issuers and instruments, in order to take advantage of specific investment opportunities.

The currency risk will systematically be hedged with the aim of achieving a residual direct exposure other than the base currency (Euros) of less than 10%.

The Fund may invest up to:

- 20% of its net assets in High Yield non convertible bonds or similar
- 10% of its net assets in Equity (excluding preferred shares). The equities

held by the Fund will only be the result of bond conversions and will be sold within a period of maximum 6 months.

Convertible bonds are debt instruments that can be converted into equities under certain conditions. This means that they have characteristics comparable to those of equities while maintaining the characteristics of conventional bonds.

The Fund has a target exposure to equity markets of between 10% and 60% (with a maximum of 70%).

The Fund may use futures, swaps (including Credit Default Swaps (CDS)), options and foreign-exchange forward contracts on regulated, organized and/or OTC markets in order to hedge the portfolio and/or expose it to equity, interest rate, credit, foreign-exchange and volatility risk.

The Fund's value is calculated and expressed in Euros.

Investors in the Fund can subscribe and redeem units on any business day in Luxembourg except days where the decisive market is closed: Luxembourg (LU).

Details of the closing days are available here:

<https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

The recommended holding period is minimum three years.

Any income received by the Fund is reinvested (capitalisation share class).

Risk and reward profile

With lower risk, With higher risk,

 potentially lower rewards potentially higher rewards

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk Category 4 reflects average/moderate potential gain and/or loss in the value of the portfolio.

This is due to investments in convertible bonds on European and global markets.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Counterparty risk: The use of over-the-counter derivatives exposes the Fund to a risk that the counterparty to the transactions will fully or partially fail to honour its contractual obligations. This may result in a financial loss for the Fund.

Credit risk: The Fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade.

Currency risk: The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

Emerging market risk: The Fund invests in developing overseas markets which carry a higher risk than investing in larger established markets. Investments in emerging markets are likely to experience greater rises and falls in value and may suffer trading problems. A Fund which invests in emerging markets rather than more developed countries may encounter difficulties when buying and selling investments. Emerging markets are also more likely to experience political and/or legal uncertainty and investments held in these countries may not have the same protection as those held in more developed countries.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to transact at advantageous times or prices.

Full details of risks are disclosed in the chapter "Risk Factors" in the prospectus.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

| | |
|--------------|-------|
| Entry charge | 3.00% |
| Exit charge | None |

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

| | |
|-----------------|-------|
| Ongoing charges | 1.12% |
|-----------------|-------|

Charges taken from the Fund under certain specific conditions

| | |
|-----------------|------|
| Performance fee | None |
|-----------------|------|

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower. Your financial advisor or distributor can inform you of the associated entry and exit charges.

The indicated ongoing charges are an estimate based on the expected total amount of charges. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another fund.

For more information about Fund charges, please refer to the relevant sections of the prospectus, which is available at www.ubp.com.

Past performance

The performance figures shown in the bar chart are not a reliable indication of future performance.

Annualised performance is calculated after deducting all charges taken from the Fund.

Fund creation date: 07/08/2015

Share class launch date: 10/03/2016

Share class currency: EUR
